this text integrates business and communication concepts to immerse students in the global communication experiences of business professionals the authors argue that the essentials of intercultural communication such as nonverbal communication conflict meeting management interviewing and negotiations are most useful to burgeoning professionals when they are woven into discussions about economic systems market forces production processes finance structures and human resources priorities each chapter begins with an explanation of theories and key terms appropriate for introductory level students in both business and communication then supplements that discussion with examples that demonstrate the concepts at work the cases chosen represent different market systems in both dominant and emerging economies explaining the cultures of competitive markets with a global perspective rather than focusing on the united states this book is ideal as a text for courses in international business or professional intercultural communication or as a supplement for more general business and communication courses

this collection is a guide to greater communication efficiency in both clarity and time management for any professional or aspiring professional it guides the reader through the ways in which communicating through technology rather than face to face can alter their perceptions of others and the perceptions others make of them each chapter concisely summarizes existing studies from the fields of communication psychology philosophy and engineering to lead the audience to very practical guidelines to make their professional communication world easier and more efficient the book is divided into three sections the first focuses on the more abstract components of communication such as creating connections and navigating humor the second part deals with more applied knowledge offering guides to specific and common technologies used for communication such as email and video conferencing the final section focuses on training for both trainers and trainees the volume gathers together contributions by 29 scholars all of whom offer their own unique expertise and guidance to the audience

there are many books that highlight the need and importance of mission toward unreached people unfortunately few of them deal with the importance of understanding the real life of unreached people and how to analyze them this book identifies conceptual issues for the development of receptor oriented communication strategies among young educated urban hui yeu hui muslims in china's northwestern cities in order to achieve culturally relevant churches in those areas it is written to help not only those who are interested in the unreached but also those who are interested in muslim evangelism urban sociology biblical exegesis contextual church planting communication and mission strategy enoch jinsik kim utilizes a new approach virtual community mission for planting offline churches that integrates the use of local church driven internet community traditional media and offline task teams from a multi ethnic local church while the research focuses on the chinese muslim context the identification of the young urban and educated as a strategic group for mission can be applied in other

muslim and non muslim contexts this research is useful to cross cultural communicators church planters and all those interested in interpersonal relationships

the bestselling text in its field international relations is praised for being the most current and comprehensive introduction to international relations theory as well as security economic and global issues from war and trade to human rights and the environment this survey explores relations among states and the influence of transnational actors and events
