valores y sus tradiciones con un enfoque accesible e informativo el autor ofrece una visión clara
e iluminadora de la cultura islámica y de su importancia en el mundo contemporáneo esta obra
es esencial para aquellos que buscan comprender las creencias y prácticas que moldean la vida
de los seguidores del islam

cuando se escribe sobre el islam desde occidente a principios del siglo xxi se tiende a vincular
islam con violencia con demasiada frecuencia la confusión terminológica es la norma evitando
análisis de mayor calado y profundidad los enfoques sumarios en términos de choque de
civilizaciones y las asociaciones habituales de islam con peligro o amenaza impiden penetrar en
la complejidad en la textura histórica sociológica y cultural que se esconde de manera
diferenciada bajo el manto de la religión el mundo musulmán es vasto y multiforme y la
conflictividad actual responde a una gran variedad de factores que es necesario comprender en
términos históricos y comparados este libro es útil para empezar a disipar las brumas para
avanzar en el imprescindible conocimiento del otro y para aquellos que pretendan hablar con
un mínimo conocimiento de causa debería estar sobre la mesa de los buenos informadores y de
los que pretenden estar bien informados

una crítica poderosa de la popular noción occidental de que el velo es un símbolo de la
opresión de las mujeres musulmanas al postular una teoría positiva del hiyab la autora desafía
congruente sofisticación las dos visiones más comunes la de que las mujeres musulmanas como
sometidas por los hombres y la de las feministas liberales que critican la elección de las

mujeres de cubrirse y las tildan como subyugadas la autora argumenta que en una cultura del consumismo el hiyab se experimenta como la liberación de la tiranía del estereotipo de la belleza y delgadez de la mujer ideal al disipar algunos mitos ampliamente aceptados sobre las mujeres musulmanas el hiyab se transforma en una poderosa representación de la voz de las musulmanas creyentes afirmando que la liberación y la igualdad de las mujeres son fundamentales para el islam mismo

globalisation turns out to be untenable because it does not guarantee minimum social equity peace and respect for the environment and therefore does not guarantee the effective accomplishment of human rights this book analyzes this issue and raises proposals for a new perspective the first part describes the soft threats to human rights derived from the devaluation of the politics and the productive economy with regard to the finance it entails the concealment of the reality in the shape of exploitation as the tax havens and in the shape of marginalization of the persons with different abilities the second part include a study of hard threats to human rights and examines two cases of failed states afghanistan and somalia in which the violence has supplanted the politics and the economy in view of these situations it is necessary to rethink the force of classic ius gentium and the humanitarian right the third part presents the european union as a legal and political space in which conditions of a worthy life are better defended by means of the primacy of practical reason and social state of law and by the requirement of peace as the main rule of international relations

inspirándose principalmente en el pensamiento decolonial latinoamericano en los llamados feminismos de la tercera ola y en el pensamiento islámico del filósofo marroquí taha abderrahman esta obra plantea una crítica profunda a los fundamentos epistemológicos de los feminismos islámicos a la vez que tantea la urgencia de un pensamiento islámico decolonial como la respuesta y quizás la única pero no unificada solución posible a la crisis del pensamiento islámico contemporáneo se trata de una invitación a comenzar un recorrido otro de verdadera introspección dialógica intracultural e intracivilizacional islámica cuya premisa básica parte paradójicamente de la consciencia del no ser en el contexto del imperio de la anulación del otro y que nos brinda posibilidades reales de liberación y de regeneración así como de una reinserción anticapitalista antisexista antipatriarcal antirracista anticlasista y anticolonial en los presentes y futuros de los que como sujetos colonizados hemos sido expulsados desde una lectura decolonial renovada de la islamofobia como una de las estructuras de poder control gobierno y subalternización del islam y los musulmanes en el sistema mundo moderno colonial esta investigación muestra cómo los discursos feministas islámicos son una respuesta reactiva a la misma en este sentido pueden leerse desde lo que judith butler ha denominado la paradoja de la subjetivización y es que los discursos que resisten tales normas son en sí mismos habilitados o creados incluso por esas mismas normas lo cual supone una limitación constitutiva que aunque no anule su capacidad de agencia social

sí los convierte en discursos reiterativos o rearticuladores inherentes al poder
