compared to other commercial buildings hospital buildings are one of the most complex
buildings projects to plan design build and operate a well planned set of all the activities
involved in construction and setting up the hospital contributes a lot to reducing errors
avoiding modifications completing a project on time reducing the modification costs
decreasing or controlling infection rate protecting patients and staff from injury increase
patient s recovery rate and increase staff satisfaction it is a fact that each hospital project
department involves many individual departments providing services procurement of
equipment workforce recruitment licensing and establishing a set of standard operating
procedures sops apart from this it is necessary to start the particular activity well on time to
make it a success in the scheduled period if the start of the activity is delayed it can delay
the total project it is noticed that the site engineer makes a lot of mistakes while setting up
the departments the reason for such mistakes can be like forgetting any particular activity
not completing the activity on time etc in this book we have tried to address all such issues

detailed all the activities in a tabular form and explained each activity in detail for the individual department of the hospital the table also contains the columns to plan the start and end date of the activity the table will also help assess the activity s progress and the person responsible for such activity the book has been written keeping in mind the timely completion of all the activities involved in setting up and furnishing the hospital s departments the book contains all such activities right from the initial setting up of the departments to the final inauguration of the hospital this book is helpful to the designers promoters site engineers architects and engineers in planning the activity its start and end linking it with other activities monitoring the activity etc well in advance as the book is in very easily understandable english language it may be a great help to students of hospital management para medical sciences architecture site engineers site supervisors hospital promoters planners and designers
