selections from durkheim s writings focus on the nature of his conception of society and its moral context

emile durkheim is best known in this country as a great sociologist and methodologist yet it was durkheim s reflections on morality and society that spoke most deeply of his vital concerns in his informative introduction to this work robert n bellah describes durkheim as moralist philosopher theologian and prophet as well as sociologist and the selections in this volume are representative of these aspects of durkheim s many faceted scholarship the first two selections of the volume set the context for the development of durkheim s sociology of morality section i the french tradition of social thought gives durkheim s picture of how his sociology is to be situated relative to the general french tradition section ii sociology and social action shows durkheim grappling with moral and political issues in his society and indicates the immediate social context of his thinking the remaining selections indicate some of the major substantive areas of durkheim s sociology of morality section iii taken from the division of labor in society demonstrates his basically evolutionary approach to the development of moral norms in society section iv the learning of morality gives examples of durkheim s work on socialization section v social creativity deals with the important question of how new moral norms arise in society

emile durkheim is widely lauded as one of the founding fathers of modern sociology and for his substantial contribution to the sociology of education this set brings some of his most important writings on the subject

emile durkheim whose writings still exert a great influence over sociological thought has often been called the father of the sociology of education he lectured extensively on the subject and was convinced of its necessary place in social theory but his work cannot be fully understood unless it is realized that he had an overriding concern form morals he saw the relationship between morals and education as almost that of theory to practice

yet he never wrote a systematic work on the subject of morals although for some time he planned such a book and managed just before he died in 1917 to write the opening introduction this collection of durkheim s work on morals and education brings together many items translated into english for the first time a wide selection of articles reviews and discussions has been included in this book covering such subjects as defining morals the science of morality moral facts relativism the relation of science to morality and in education problems of definition childhood sex education rousseau s emile teaching secular morality and the effectiveness of moral doctrines the book also included an introduction to each of the two sections as well as bibliographies which deal with durkheim s own works on morals and education together with those covering references to his writing on these subjects written by others

individuals make decisions but they do not do so in a social vacuum the goods they buy are frequently status symbols in a zero sum game which some will win and some must lose their consumption of commodities is subject to the constraint that what one can do all cannot the pressure of coalitions and interest groups the self interest of politicians and bureaucrats may all work against a solution being found for some of the most urgent social and economic problems of our times these problems form the centrepiece of the economic approach to social interaction that has been pioneered by anthony downs mancur olson and fred hirsch this book seeks to examine and evaluate their important theories of collective action
