the biblical bible study handbook is fit for the christian who want to learn and study the bible

the material in these studies has been given as lessons in bible study classes or sermons preached from the author s pulpit through the course of many years it has been brought together in this form that it might be a help to busy pastors and bible teachers in their preparation of messages and that it might be of practical and devotional value for all bible students and christian workers who want to understand the rich teaching of old testament types the author does not claim to have exhausted the possible types of the old testament in these studies but he has endeavored to deal with some sections of scripture that without the typical approach would find little of practical application for the christian today for this reason the chapter dealing with types in leviticus has been made the longest chapter in the book we trust that that book of the bible will mean more to the reader after studying this chapter the study of the tabernacle in the wilderness from the typical viewpoint has always been a joy to the hearts of bible students but the author has discovered that a study of the typical truths of solomon s temple is equally valuable and precious we suggest that bible teachers give more attention to this neglected subject these studies are of necessity fairly brief many scriptures have been included that throw light on the particular subject but the material herewith presented should be suggestive and wise students of scripture can add other details to what has been given may the lord use these studies to help many to understand and make practical application of old testament truth to the lives of modern day christians
