economists consider the legacy of karl brunner s monetarism and its influence on current debates over monetary policy monetarism emerged in the 1950s and 1960s as a school of economic thought that questioned certain tenets of keynesianism emphasizing the monetary nature of inflation and the responsibility of central banks for price stability monetarism held sway in the inflation plagued 1970s but saw its influence begin to decline in the 1980s although milton friedman is the economist most closely associated with the development of monetarism it was karl brunner 1916 1989 who introduced the term into the current vocabulary of economics and shaped its meaning in this volume leading economists many of them brunner s friends and former colleagues consider the influence of brunner s monetarism on current debates over monetary policy some contributors were participants in debates between keynesians and monetarists others analyze specific aspects of monetarism as theorized by brunner and his close collaborator allan meltzer or address its influence on us and european monetary policy others take the opportunity to examine brunner meltzer monetarism through the lens of contemporary macroeconomics and monetary models the book grows out of a symposium that marked the 100th anniversary of brunner s birth contributors ernst baltensperger michael d bordo pierrick clerc alex cukierman michel de vroey james forder benjamin m friedman kevin d hoover thomas j jordan david laidler allan h meltzer thomas moser edward nelson juan pablo nicolini charles i plosser kenneth rogoft marcel savioz jürgen von hagen stephen williamson

these essays from leading names in the field weave together the parallels and differences between the past and present of civic art offering prospects for the first decades of the twenty first century the authors open up a broad international dialogue on civic art which relates historical practice to the contemporary meaning of civic art and its application to community building within today s multi cultural modern cities the volume brings together the rich perspectives on the thought practice and influence of leading figures from the great era of civic art that began in the nineteenth century and blossomed in the early twentieth century as documented in the works of werner hegemann and his contemporaries and considered fundamental to contemporary practice

reforming priests and parishes consists of case studies of diocesan seminaries in the grand duchy of tuscan y and the republic of lucca from 1563 1660s the major cases are arezzo siena volterra and lucca and the dioceses and institutions are examined in their financial educational and religious milieux several other cases florence montepulciano pienza and pisa are treated in less detail to provide contextual interpretative focal points most of the seminaries

have never been treated in english language studies before and no comparative study exists in any language all of the case studies contain in depth analysis of rare primary source material

this book brings together different and interdisciplinary perspectives on the spanish civil war its victims its contentious ending and its aftermath in exploring the slow demise of republican ideals contributors range over many diverse historical and cultural topics discussing for instance the attitudes of both left and right to the poet federico garcía lorca and to his assassination examining the documentary evidence offered in surviving memoirs of the civil war and assessing the major characteristics of the new order in spain under franco cinematic and literary depictions of the civil war and its consequences are also studied other topics investigated include contemporary french reactions to the spanish conflict stalinist policies towards spain the activities and motives of the anarcho syndicalists and the role of the international brigades this collection of essays published on the 75th anniversary of the end of the civil war not only places the events and experiences studied within the context of the new state of franco s spain but also offers timely fresh insights into wider european and international issues during what was a period of seismic change in world history this book was originally published as a special issue of bulletin of spanish studies

historians have often either ignored anacharsis cloots 1755 1794 or considered him deranged because he claimed to be the orator of the human race and devised a universal republic based on the sovereignty of the human race this book is the first comprehensive study of the entire body of cloots s written works and political actions by contextualizing them the book non only rehabilitates cloots as a political thinker worthy of consideration but also argues that his political thought constitutes a specific branch of republicanism in the age of atlantic revolutions cosmopolitan republicanism the introduction suggests how 18th century french cosmopolitanism was a new philosophical tradition but was composed of several themes which the book then analyses in cloots s writings the first chapter provides a brief overview of his life the second chapter explains why he called himself orator and wrote pamphlets and why contemporary readers should not discard this as non philosophical having established cloots s writings as constituting a philosophical system the following chapters explores it through the themes laid out in the introduction first the concept of reason and his understanding of science second the paradigm of natural law and the role of nature in moral and political thought third the conception of humanity and individuals in nature and society finally republicanism and its principles the last chapter summarizes the elements of cloots s cosmopolitan republicanism and opens a research programme to other political thinkers in the age of atlantic revolutions for historians and political theorists

the catalogue is substantially the work of william j c berry esq the librarian assisted during the last year by j herbert senter esq it embraces nearly 40 000 volumes
