exploring one of the central themes in science education theory this volume examines how science education can be considered as a scientific activity within a broad post positivist notion of science many students find learning science extremely problematic whatever level of education they have reached at the end of the 1970s a new approach to tackling learning difficulties in science was developed drawing on ideas from psychology and cognitive science and centred on the way students build up new knowledge in reference to their existing ideas constructivism became the dominant paradigm in science education research for two decades spawning a vast body of literature reporting aspects of learners ideas in different science topics however constructivism came under fire as it was recognised that the research did not offer immediate and simple prescriptions for effective science teaching the whole approach was widely criticised in particular by those who saw it as having anti science leanings in this book the notion of scientific research programmes is used to understand the development limitations and potential of constructivism it is shown that constructivist work in science education fits into a coherent programme exploring the contingencies of learning science the author goes further to address criticisms of constructivism evaluate progress in the field and suggest directions for future research it is concluded that constructivism has provided the foundations for a progressive research programme that continues to guide enquiry into learning and teaching science

secure the key science skills and knowledge students need to succeed in the new ks3 science curriculum with pupil book 3

the remit of the office for standards in education ofsted is to improve standards of achievement and quality of education in england through regular independent inspection of schools public reporting and informed independent advice the annual report for 2000 01 considers current issues of importance

contains the evidence from the year's inspections and identifies particularly successful schools overall the report finds there are continuing improvements in the quality of teaching and in the leadership and management of schools the achievements of pupils with special educational needs are found to show improvements both in special and mainstream schools the problems in the recruitment and in particular the retention of teachers are noted the report highlights two key concerns regarding 1 the gap between the highest and lowest performing schools at secondary level 2 and the under achievement levels amongst certain groups of pupils including those from ethnic minorities children in care children from traveller communities as well as a significant number of missing pupils of whom very little is known
