consistent with international trends there is an active pursuit of more engaging science education in the asia pacific region the aim of this book is to bring together some examples of research being undertaken at a range of levels from studies of curriculum and assessment tools to classroom case studies and investigations into models of teacher professional learning and development while neither a comprehensive nor definitive representation of the work that is being carried out in the region the contributions from china hong kong taiwan korea japan singapore australia and new zealand give a taste of some of the issues being explored and the hopes that researchers have of positively influencing the types of science education experienced by school students the purpose of this book is therefore to share contextual information related to science education in the asia pacific region as well as offering insights for conducting studies in this region and outlining possible questions for further investigation in addition we anticipate that the specific resources and strategies introduced in this book will provide a useful reference for curriculum developers and science educators when they design school science curricula and science both pre service and in service teacher education programmes the first section of the book examines features of science learners and learning and includes studies investigating the processes associated with science conceptual learning scientific inquiry model construction and students attitudes towards science the second section focuses on teachers and teaching it discusses some more innovative teaching approaches adopted in the region including the use of group work inquiry based instruction developing scientific literacy and the use of questions and analogies the third section reports on initiatives related to assessments and curriculum reform including initiatives associated with school based assessment formative assessment strategies and teacher support accompanying curriculum reform the open access version of this book available at [taylorfrancis.com/books/e/9781315717678](http://taylorfrancis.com/books/e/9781315717678) has been made available under a creative commons attribution non commercial no derivatives 4.0 license

this book discusses the internationalisation of secondary education in europe examining national policies implementation and challenges it explores european citizenship common values and the tension between national identity and european unity

in turkish textbooks migrants are frequently portrayed as marginalized individuals who are labelled as needy guests and consumers of limited resources these textbooks fail to portray migrants as a constituent element of society neglecting to acknowledge their substantial contributions to both social and economic life furthermore the textbooks disregard the rich tapestry of migrants lives traditions and cultures by omitting instances of successful migrant experiences this narrative promotes discontent hatred exclusion and fear towards migrants within educational institutions and society at large however defining migrants as the constituent elements of society highlighting their contributions to social and economic life and including their culture and traditions in textbooks can play a pivotal role in cultivating positive attitudes and behaviors towards immigrants a paradigm shift in depicting migrants as

essential constituents of society is imperative

a persuasive collection that considers how centering the knowledge and perspectives of historically marginalized groups enriches k 12 history teaching and learning
