this is the first of a three volume anthology of edo and meiji era urban literature that includes an edo anthology literature from japan s mega city 1750 1850 and a tokyo anthology literature from japan s modern metropolis 1850 1920 the present work focuses on the years in which bourgeois culture first emerged in japan telling the story of the rising commoner arts of kamigata or the upper regions of kyoto and osaka which harkened back to japan s middle ages even as they rebelled against and competed with that earlier era both cities prided themselves on being models and trendsetters in all cultural matters whether arts crafts books or food the volume also shows how elements of popular arts that germinated during this period ripened into the full blown consumer culture of the late edo period the tendency to imagine japan s modernity as a creation of western influence since the mid nineteenth century is still strong particularly outside japan studies a kamigata anthology

challenges such assumptions by illustrating the flourishing phenomenon of japan s movement into its own modernity through a selection of the best examples from the period including popular genres such as haikai poetry handmade picture scrolls travel guidebooks kabuki and joruri plays prose narratives of contemporary life and jokes told by professional entertainers well illustrated with prints from popular books of the time and hand scrolls and standing screens containing poems and commentaries the entertaining and vibrant translations put a spotlight on texts currently unavailable in english

what makes a work of literature readable this book asks that question of one of the classics of japanese literature the tsurezuregusa essays in idleness by kenko 1283 1352 a collection of brief fragmentary reflections on a number of subjects in japanese literary history the work is classified as one of the first collections of zuihitsu or informal essay this first extended critical treatment of tsurezuregusa goes back to its author and his time to rebuild the discursive world of the early fourteenth century and to examine such matters as whether genre labels assist reading or obscure significant comparisons and contexts the book presents compelling arguments against considering tsurezuregusa as an example of zuihitsu instead the text is treated as a deliberate controlled effort by kenko to force the reader to confront the impermanent and contingent nature of existence through experiencing the text the book develops this view by studying the collaborative strategies operating between writers and readers in medieval japan the intellectual intent and devices of kenko s text and the many kinds of writing on which it draws we learn how a text with a commitment to shaping responses to the world is simultaneously dedicated to exploding the reader s identification with the presumably unchanging facts of existence the aesthetics of impermanence mujo central to medieval japanese thinking emerges not only as what writing is about but also as a means to demonstrate and to encourage the enactment of aesthetics by readers thus a work that seems formless to have little structure is shown to be so in the interest of form that is of conveying a clear meaning to its audience or to express it with a more buddhist inflection amenable to kenko although the form that we can perceive is contingent on conditions and is hence formless the fact of form continues to matter absolutely both literature and the nature of existence are readable because of the interplay of provisional and absolute truths of the writer s and the reader s approaches to texts
