depuis des décennies l intelligence artificielle est omniprésente dans l écosystème juridique bouleversant les pratiques traditionnelles et ouvrant la voie à de nouvelles perspectives les progrès technologiques récents ont métamorphosé les outils d aide à la décision judiciaire les approches purement statistiques ont cédé la place à des systèmes de l intelligence artificielle génératrice capables de modéliser et reproduire la complexité des raisonnements juridiques dans le sillage de la justice augmentée par la technologie émerge une reconfiguration formelle qui s inscrit dans une toile plus vaste de transformation structurelle du système judiciaire la concrétisation de cette mutation dépend de la capacité à surmonter les obstacles tant législatifs que matériels ces avancées redessinent les contours du lien entre cette technologie et les juristes qui l utilisent le recours à ces outils conduit les juristes à se soumettre aux nouveaux cadres rationnels et opérationnels mathématiques alors qu ils définissent les programmes informatiques et les cadres juridiques encadrant le fonctionnement des algorithmes cet ouvrage est une invitation à repenser notre rapport à la technologie à l humanité et à la justice à l ère de l intelligence artificielle

presenting a selection of innovative research contributions written by some of the best known academics in the field the economics of copyright covers issues that are at the forefront of the implementation and management of copyright the book touches on all aspects of copyright management including the effects of copyright piracy optimal contractual arrangements between authors and publishers copyright and antitrust issues and collective management of copyright this selection of papers not only shows how fruitful the study of copyright from an economic theory perspective has been but they also clearly indicate the directions and analytical tools that will be of principal interest over the next few years as research in this area flourishes both legal scholars specialising in intellectual property and applied economics scholars will find this book of importance as will organisations dealing with the management and protection of intellectual property rights the book will also be good reading for any advanced university course dealing with the economics of copyright

how different cultural groups can be made to live together in justice and fairness in one common political entity has in the past been discussed almost exclusively from the

perspective of nation states in an increasingly globalising or de nationalising world this no longer seems adequate the european union as a union of states and with an built expansive tendency is a very different unique kind of organization offering a challenging new context for the discussion of how social justice can be ensured in multicultural societies as debates in the post maastricht era show the european process of regional integration needs to be accompanied by profound reflexions on issues such as multiculturalism democratic legitimacy and the idea of citizenship in three sections on globalisation and multiculturalism deliberation and democracy and citizenship and the european union this book offers such reflexions formulated by young european legal and political philosophers from england estonia france italy spain and switzerland the papers were discussed at a conference held in november 2001 in tossa de mar spain this was the first of three phd euroconferences in legal philosophy sponsored by the commission of the european union the papers of the other two conferences nov 2002 gerona spain nov 2003 genoa italy are forthcoming in this collection
