this is the first etymological dictionary of proto celtic to be published after a hundred years synthesizing the work of several generations of celtic scholars it contains a reconstructed lexicon of proto celtic with ca 1500 entries the principal lemmata are alphabetically arranged words reconstructed for proto celtic each lemma contains the reflexes of the proto celtic words in the individual celtic languages the proto indo european pie roots from which they developed as well as the cognate forms from other indo european languages the focus is on the development of forms from pie to proto celtic but histories of individual words are explained in detail and each lemma is accompanied by an extensive bibliography the introduction contains an overview of the phonological developments from pie to proto celtic and the volume includes an appendix treating the probable loanwords from unknown non ie substrates in proto celtic

this volume offers a discussion of the phonological and morphological development of old irish and its indo european origins the emphasis is on the relative chronology of sound changes and on the development of the verbal system special attention is devoted to the origin of absolute and relative verb forms to the rise of the mutations to the role of thematic and athematic inflexion types in the formation of present classes preterits subjunctives and futures and to the development of deponents and

passive forms other topics include infixed and suffixed pronouns palatalization of consonants and labialization of vowels and the role of continental celtic in the reconstruction of proto celtic the final chapter provides a detailed analysis of the latin and other italic data which are essential to a reconstruction of proto italo celtic the appendix contains a full reconstruction of the old irish verbal paradigms which renders the subject more easily accessible to a wider audience the book is of interest to celticists latinists indo europeanists and other historical linguists

in the reflexes of the proto indo european laryngeals in celtic nicholas zair for the first time collects all the words from the celtic languages which contained a laryngeal and identifies the regular results of the laryngeals in each phonetic environment

this encyclopedia covers the entirety of the celtic world both through time and across geography although emphasizing the areas where celtic languages and traditions survive into the present the work does not slight the reaches of the celtic empire which was the largest language and cultural group on earth prior to the rise of rome in some 1 500 articles many representing original research by the finest celtic scholars the work covers the celts from prehistory to the present giving comprehensive treatment to all topics from myth to music religion to rulers literature to language government to games and all topics in between
