the current economic situation has highlighted deficiencies in corporate governance while also showing the importance of stakeholder relations it has also raised the profile of the debates regarding corporate social responsibility and shown the inter relationship with governance and the two together are essential for sustainable business the social and environmental contexts of business are generally considered to be as significant as the economic and financial contexts and good governance will address all of these aspects the combination of these aspects offers long term benefits for a firm such as reducing risk and attracting new investors shareholders and more equity as well as sustainable performance written by experts from all over the world a handbook of corporate governance and social responsibility is the most authoritative single volume guide to the relationship between good governance and social responsibility and the reality of managing both in addition to the theory and practice of governance and csr the book includes case studies from large and small organizations and ngos to highlight examples of good and bad practice and to show international and cultural similarities and differences while at the same time furthering the debate regarding the relationship between good governance and social responsibility

the main objective of this book is to provide an innovative set of concepts and tools regarding company management internal and external stakeholders and social responsibilities reflecting the necessities and opportunities generated by the digital transformation the transition to a knowledge based economy and the covid 19 crisis the book based on a holistic vision and contextual approach of business contributes to the development of company management and stakeholder and social responsibility theories and practices being structured in 12 chapters the original company management vision approaches and tools are based on three pillars a new manager

relevant stakeholder rather than manager subordinate managerial paradigm a new type of company social responsibility rather than corporate social responsibility and a new concept of company relevant stakeholder rather than that of salient stakeholders the book contains two innovative managerial mechanisms the managerial synapse and company relevant stakeholders based management system able to help companies and stakeholders face successfully the challenges of digital transformation and the covid 19 crisis and to generate greater organization functionality and performance the book will be of interest to company managers and management specialists management academics consultants and researchers and mba students interested in a style of management with social responsibility at the forefront

it is increasingly being accepted that there is a benefit to both parties when a relationship is established between an ngo and a company this book intends to research various aspects of such relationships in order to arrive at some conclusions regarding the potential benefits and pitfalls of such relationships

this book investigates the concept of consumer social responsibility cnsr by considering the combination of consumption behaviour and social responsibility it puts forward a theory of responsible consumption behaviour then models and empirically tests this theory using quantitative research methods in so doing the book offers a new consumer behaviour model the c a c b concern attitude commitment behaviour model the book appeals to readers interested in consumer behaviour research methodologies social responsibility corporate social responsibility segmentation and profiling sustainability and structural equation modelling with path analysis and confirmatory factor analysis the book also offers concrete recommendations that will benefit businesses and governments alike
