jacaranda nature of biology victoria s most trusted vce biology online and print resource the jacaranda nature of biology series has been rewritten for the vce biology study design 2022 2026 and offers a complete and balanced learning experience that prepares students for success in their assessments by building deep understanding in both key knowledge and key science skills prepare students for all forms of assessment preparing students for both the sacs and exam with access to 1000s of past vcaa exam questions now in print and learnon new teacher only and practice sacs for every area of study and much more videos by experienced teachers students can hear another voice and perspective with 100s of new videos where expert vce biology teachers unpack concepts vcaa exam questions and sample problems for students of all ability levels all students can understand deeply and succeed in vce with content mapped to key knowledge and key science skills careful scaffolding and contemporary case studies that provide a real word context elogbook and eWorkbook free resources to support learning eWorkbook and the increased requirement for practical investigations elogbook which includes over 80 practical investigations with teacher advice and risk assessments for teachers learnon includes additional teacher resources such as quarantined questions and answers curriculum grids and work programs

deliver the springboard science course confidently with this workload friendly approach to a knowledge rich curriculum learn how to use cognitive science principles to deliver more effective dynamic and engaging lessons whatever your level of experience divided into topics rather than lessons this handbook enables you to teach each topic in a responsive fashion and at a pace that is right for your students feel fully supported guided explanations diagram constructions demonstrations and worked examples have been carefully crafted to support all teachers including those teaching outside of their subject specialism overcome common misconceptions prerequisite knowledge checks for students help you to identify any missing knowledge or misconceptions before a topic is started with approaches to solve these covered throughout the explanations tailor teaching to the class in front of you check for understanding questions allow you to adapt your delivery to meet students needs with suggested questions and responses to start the process take a different approach to practicals our slow practical approach exemplifies core concepts and provides students with a clear grounding in practical skills with at least one essential

practical for every unit the three teacher handbooks one for each year give the teacher all the guidance and detail they need to deliver great science lessons their efficacy is further enhanced when used alongside a boost subscription which offers supplementary guidance and materials including our customised springboard science two year course planner to enrich your science teaching experience designed to be used alongside our knowledge book and practice books the knowledge book is the concise reference book for students covering the entire curriculum and focusing on the key facts and concepts that they need to know the three practice books provide an abundance of questions for independent practice

chapter discussion question teachers are encouraged to participate with the student as they complete the discussion questions the purpose of the chapter purpose section is to introduce the chapter to the student the discussion questions are meant to be thought provoking the student may not know the answers but should answer with their thoughts ideas and knowledge of the subject using sound reasoning and logic they should study the answers and compare them with their own thoughts we recommend the teacher discuss the questions the student s answers and the correct answers with the student this section should not be used for grading purposes dvd each dvd is watched in its entirety to familiarize the student with each book in the course they will watch it again as a summary as they complete each book students may also use the dvd for review as needed as they complete each chapter of the course chapter worksheets the worksheets are foundational to helping the student learn the material and come to a deeper understanding of the concepts presented often the student will compare what we should find in the fossil record and in living creatures if evolution were true with what we actually find this comparison clearly shows evolution is an empty theory simply based on the evidence god s word can be trusted and displayed both in the fossil record and in living creatures tests and exams there is a test for each chapter sectional exams and a comprehensive final exam for each book

the vital resource for grading all assignments from the cultural issues creation evolution and the bible course which includes learning answers information and strategies when facing destructive influences found in the workplace or school environments studying fossils the age of

the earth the beginning of life and more in these two volumes focused on points of contention related to the bible faith and science overview this curriculum has been put together to provide the answers to many common objections to biblical worldviews and scriptural authority of the bible practical tests are included to strengthen the student s grasp of key concepts and terms while providing critical thinking opportunities to put their knowledge to work students will learn to apply the biblical worldview to subjects such as evolution carbon dating noah s ark and the flood and dozens more they will discover answers to help know the depths of god s wisdom found in his word and in his world and why this matters to your life your family and your faith features the calendar provides lesson planning with clear objectives and the worksheets and tests are all based on the materials provided for the course
