do you want your students to just take psychology or to experience psychology experience psychology is a complete learning system that empowers students to personally critically and actively experience the impact of psychology in everyday life experience psychology is about well experience our own behaviors our relationships at home and in our communities in school and at work and our interactions in different learning environments grounded in meaningful real world contexts experience psychology s contemporary examples personalized author notes and applied exercises speak directly to students allowing them to engage with psychology and to learn verbally visually and experientially by reading seeing and doing with the experience psychology learning system students do not just take psychology but actively experience it experience a personalized approach how many students think they know everything about introductory psychology but struggle on the first exam learnsmart mcgraw hill s adaptive learning system pinpoints students metacognitive abilities and limitations identifying what they know and more importantly what they don t know using bloom s taxonomy and a highly sophisticated smart algorithm learnsmart creates a personalized customized study plan that s unique to each individual student s demonstrated needs with virtually no administrative overhead instructors using learnsmart are reporting an increase in student performance by a letter grade or more throughout experience psychology students find a wealth of

personal pedagogical asides directly from Laura King to guide their understanding and stimulate their interest as they read some of these helpful notes highlight crucial terms and concepts others prompt students to think critically about the complexities of the issues other notes encourage students to apply what they have learned to their prior reading or to a new situation these mini conversations between author and students help develop analytical skills for students to carry and apply well beyond their course experience an emphasis on critical thinking experience psychology stimulates critical reflection and analysis challenge your thinking sidebar features involve students in debates relevant to findings from contemporary psychological research thought provoking questions encourage examination of the evidence on both sides of a debate or issue also oriented toward critical thought are the text's intersection selections showcasing studies in different areas of psychological research that are being conducted on the same topic the intersections shed light on the links between and the reciprocal influences of this exciting work and they raise provocative questions for student reflection and class discussion experience an emphasis on active engagement with the new experience it feature students can use their mobile devices to practice and master key concepts wherever and whenever they choose by snapping easily located QR codes students gain access to videos concept clips and related news articles for a highly portable rich and immersive experience that powerfully reinforces the chapter reading through do it a series of brief reoccurring sidebar activities linked to the text reading students get an opportunity to test their assumptions and learn through hands on exploration and discovery reinforcing that the science of psychology requires active participation do it selections include for example an exercise on conducting an informal survey to observe and classify behaviors in a public setting as well as an activity guiding students on how to research a happiness gene such exercises provide students with a vibrant and involving experience that gets them thinking as psychologists do experience psychology helps students to perform to their maximum potential in and out of the classroom fully engaging them in the content and experiences that comprise the world's most popular undergraduate major

the science of psychology an appreciative view by Laura King University of Missouri at Columbia is the first text to bring a truly appreciative view of psychology as a science and for exploring behavior to introductory students it is built around the idea that students must study the discipline of psychology as a whole that the sub disciplines are intricately connected and that human behavior is best understood by exploring its functioning state in addition to its potential dysfunctions for example imagine that you have been asked to create a science of "watchology" you have two watches that both have had the unfortunate "trauma" of being left in the pocket of someone's jeans through the washer and dryer one watch has suffered the worst possible fate it no longer tells time the other has emerged from the traumatic event still ticking which watch would you use to develop your new science of watchology clearly the working watch will help you understand watches better than the broken one what does watchology have to do with psychology quite simply in psychology as in watchology it makes sense to start with what works to gain a general understanding of human behavior and then apply that knowledge to those who have emerged from life's experiences in dysfunction

when things go right for students things go right for instructors focusing on why things go right the science of psychology an appreciation view third edition helps students understand and appreciate psychology as a science and as an integrated whole informed by student data the third edition's program extends these themes and enhances their pedagogical value by guiding students toward topics they find the most challenging and then offering new learning resources to help students master them

why things go right the science of psychology an appreciative view by Laura King University of Missouri at Columbia is the first text to bring a truly appreciative view of psychology as a science and for exploring behavior to introductory students it is built around the idea that students must study the discipline of psychology as a whole that the sub disciplines are intricately connected and that human

behavior is best understood by exploring its functioning state in addition to its potential dysfunctions for example imagine that you have been asked to create a science of watchology you have two watches that both have had the unfortunate trauma of being left in the pocket of someone's jeans through the washer and dryer one watch has suffered the worst possible fate it no longer tells time the other has emerged from the traumatic event still ticking which watch would you use to develop your new science of watchology clearly the working watch will help you understand watches better than the broken one what does watchology have to do with psychology quite simply in psychology as in watchology it makes sense to start with what works to gain a general understanding of human behavior and then apply that knowledge to those who have emerged from life's experiences in dysfunction

why things go right the science of psychology an appreciative view study edition by laura king university of missouri at columbia is the first text to bring a truly appreciative view of psychology as a science and for exploring behavior to introductory students it is built around the idea that students must study the discipline of psychology as a whole that the sub disciplines are intricately connected and that human behavior is best understood by exploring its functioning state in addition to its potential dysfunctions in this new study edition laura king maintains her extremely popular blend of contemporary research and writing that maximizes students interest this edition offers multiple choice review questions throughout each chapter as well as practice quizzes and exams

the science of psychology in modules offers instructors flexibility in teaching and gives students a manageable framework for course success how modules work for you each chapter is broken down into 2-4 smaller modules allowing instructors to assign the content they want in the order they prefer with connect psychology instructors can customize content and course materials to meet the needs of their course real time reports show how well each student is performing on each course segment mcgraw hill create provides a simple way for instructors to create customized texts and ebooks tailored to their course real time reports show how well each student is performing on each course assignment instructors can use this feature to spot problem areas before they crop up on an exam how modules work for your students the modular format promotes student learning and success by presenting content in small manageable chunks the appreciative view puts function before dysfunction and treats psychology as an integrated science students come to understand the true breadth of the discipline and to apply what they learn to their own daily experiences the adaptive learning system helps students identify what they know and don't know then guides them to a focus on what they don't know through interactivities exercises and readings

help your introductory psychology students master the foundations of psychology while developing an appreciation for the entire discipline improve student performance with reports that highlight areas of strength and weakness and measure performance on learning objectives metacognitive skills and more help your students understand the functional side of psychology including why things go right and how to apply psychology to improve their day to day lives

psychology is all around us in our relationships our homes our communities our schools and our work but linking everyday experiences to the academic discipline of psychology is not always so easy laura king's experience psychology was built to do just that from cover

smartbook is the first and only adaptive reading experience fueled by learnsmart the most widely used and intelligent adaptive learning technology smartbook identifies what you know and don't know and highlights what you need to learn it even figures out what material you are most likely to forget smartbook helps you study smarter not harder and get the grades you want
