based directly on the standard german edition by johannes hoffmeister this translation presents hegel s vision of history in a lucid accessible form that captures the nuances of his thought

the hegel lectures series editor peter c hodgsonhegel s lectures have had as great a historical impact as the works he himself published important elements of his system are elaborated only in the lectures especially those given in berlin during the last decade of his life the original editors conflated materials from different sources and dates obscuring the development and logic of hegel s thought the hegel lectures series is based on a selection of extant and recently discovered transcripts and manuscripts the original lecture series are reconstructed so that the structure of hegel s argument can be followed each volume presents an accurate new translation accompanied by an editorial introduction and annotations on the text which make possible the identification of hegel s many allusions and sources lectures on the history of philosophy volume ii greek philosophyhegel s lectures on the history of philosophy offer one of the best points of entry to his philosophical system the second volume dating from 1825 6 covers a thousand years of ancient greek philosophy this is the period to which hegel devoted by far the most attention

and which he saw as absolutely fundamental for all that came after it this edition sets forth clearly and for the first time for the english reader what hegel actually said it forms part of oup s hegel lectures series presenting accurate new translations accompanied by editorial introductions and annotations these lectures challenged the antiquarianism of hegel s contemporaries by boldly contending that the history of philosophy is itself philosophy not just history it portrays the journey of reason or spirit through time as reason or spirit comes in stages to its full development and self conscious existence through the successive products of human intellect and activity hegel s lectures on the history of philosophy proved to be extremely influential on the intellectual history of the past two centuries these lectures are crucial to understanding hegel s own systematic philosophy in its constructive aspect as well as his views on the centrality of reason in human history and culture the volume on greek philosophy covers the first one thousand years the period to which hegel devoted by far the most attention and which he saw as absolutely fundamental for all that came after it this edition adapts the considerable editorial resources of the german edition that it translates to the needs of the general reader as well as the serious scholar so as to constitute an unparalleled resource on this topic in the english language

remarks on political philosophy lectures on hobbes lectures on locke lectures on hume lectures on rousseau lectures on mill lectures on marx

in lectures on the constitution and laws of england francis stoughton sullivan presents a meticulous exploration of the development and intricacies of english law shaped by historical context and constitutional evolution sullivan s literary style is characterized by clarity and rigor weaving together complex legal principles with accessible language throughout the lectures he examines the foundations of the english legal system emphasizing both its precedents and contemporary implications making the work an essential resource for both legal scholars and practitioners the book reflects the enlightenment s intellectual currents echoing themes of reason and inquiry that were central to the era s philosophical discourse francis stoughton sullivan a prominent 18th century legal scholar and reformer had a profound commitment to the elucidation of legal education his background intertwined with a formative education in law and his tenure as a lecturer imbued him with a unique perspective sullivan s grievances regarding obscure legal principles fuelled his desire to make the law more comprehensible to future

generations a goal that resonates throughout this work readers are encouraged to delve into sullivan s authoritative text for its unparalleled depth and insight into the english legal system whether for academic study or personal enrichment this book proves invaluable for anyone eager to grasp the complexities of legal heritage and its continuing relevance today

lectures from the late period of fichte s career never before available in english translated here for the first time into english this text furnishes a new window into the final phase of fichte s career delivered in the summer of 1812 at the newly founded university of berlin fichte s lectures on ethics explore some of the key concepts and issues in his evolving system of radical idealism addressing moral theory the theory of education the philosophy of history and the philosophy of religion fichte engages both directly and indirectly with some of his most important contemporaries and philosophical rivals including kant schelling and hegel benjamin d crowe s translation includes extensive annotations and a german english glossary his introduction situates the text systematically historically and institutionally within an era of cultural ferment and intellectual experimentation and includes a bibliography of recent scholarship on fichte s moral theory and on the final period of his career

lectures on the early history of institutions by henry sumner maine first published in 1888 is a rare manuscript the original residing in one of the great libraries of the world this book is a reproduction of that original which has been scanned and cleaned by state of the art publishing tools for better readability and enhanced appreciation restoration editors mission is to bring long out of print manuscripts back to life some smudges annotations or unclear text may still exist due to permanent damage to the original work we believe the literary significance of the text justifies offering this reproduction allowing a new generation to appreciate it
