religion was a constant theme throughout paul ricoeur s long career and yet he never wrote a full length treatment of the topic in this important new book brian gregor draws on the full scope of ricoeur s writings to lay out the essential features of his philosophical interpretation of religion from his earliest to his last work ricoeur s central claim is that religion aims at the regeneration of human capability in his words the rebirth of the capable self this book provides a rich thematic account of ricoeur s hermeneutics of religion showing how the theme of capability informs his changing interpretations of religion from his early work on french reflexive philosophy and the philosophy of the will to his late work on forgiveness mourning and living up to death gregor exhibits ricoeur s original contribution to philosophical reflection on such themes as evil suffering and violence as well as imagination embodiment and spiritual exercise he also presents a critical reconsideration of ricoeur s separation of philosophy from theology and his philosophical interpretation of christian theological ideas of revelation divine transcendence and personhood atonement and eschatology additionally gregor provides an expansive look at ricoeur s interlocutors including marcel jaspers kant hegel levinas and girard theologically inclined readers will be particularly interested in the book s treatment of karl barth and the protestant theology of the word which was a vital influence on ricoeur the result is a study of ricoeur that is both sympathetic and critical provocative and original inviting the reader into a deeper engagement with ricoeur s philosophical interpretation of religion

paul ricoeur s work is of seminal importance to the development of hermeneutics phenomenology and ideology critique in the human sciences this major volume assembles leading scholars to address and explain the significance of this extraordinary body of work opening with three key essays from ricoeur himself the book offers a fascinating tour of his work ranging across topics

such as the hermeneutics of action narrative force the other and deconstruction while discussing his work in the context of such contemporary figures as including heidegger lac evinas arendt and gadamer paul ricoeur is also published as volume 21 issue 5 6 of philosophy and social criticism

paul ricoeur s contribution to the theory of interpretation or hermeneutics is considerable he ranks among the masters of this discipline alongside schleiermacher dilthey heidegger and gadamer in addition to major works like the conflict of interpretations he wrote many articles and shorter texts which deserve to be discovered and rediscovered these allow us to gain a deeper understanding of the development of his work over time and to appreciate the full range of his contribution some of the texts examine the nature of metaphor while others guide the reader through the many challenges of the hermeneutic problem from the symbol to the text then to the text as action taking full account of the ethical implications here one encounters ricoeur s reflections on the future of hermeneutics and his abiding concern to explore the relations between hermeneutics and analytical philosophy ricoeur s contribution to biblical hermeneutics has also been decisive two masterful studies in this volume attest to ricoeur s attempt to explore the relations between revelation and truth on the one hand and between myths of salvation and reason on the other this book the second volume of ricoeur s writings and lectures brings together texts which appeared between 1972 and 2006 it is published under the auspices of le fonds ricoeur

the routledge critical thinkers series puts key thinkers and their ideas firmly back in their contexts each volume reflects the need to go back to the thinker s own writings and ideas to fully appreciate those ideas

paul ricoeur was one of the most prolific thinkers of the twentieth century there have been many books written on ricoeur s philosophy but very little is available on his theological trajectory and its connection to biblical interpretation gregory laughey s

living hermeneutics aims to fill that lacuna he brings to life the diverse ways in which ricoeur s work can contribute to and open up viable possibilities for critiquing both modernist and postmodernist orientations while offering new theological and hermeneutical directions for understanding the text the reader and the world this book is aimed at a broad student audience as well as the interested general reader who would like to know more about ricoeur

in this little volume anthony thiselton makes an impassioned appeal for closer attention to the philosophy of hermeneutics emilio betti provocatively observes that hermeneutics ought to constitute an obligatory course for most degrees in the humanities hermeneutics he insists teaches patience tolerance respect for other views understanding and humility while holding one s own views with firmness and generosity yet many teaching institutions do not yet recognize this with this in mind thiselton first considers and responds to those who argue that hermeneutics is not necessary then he considers anew more sophisticated thinkers on the subject types of texts and hermeneutical models he argues are almost infinite a fact many biblical scholars do not recognize in the field of biblical hermeneutics too many view the bible as one thing or as a monochrome landscape it is not the culmination of thiselton s case consists in a sustained reflection on the impressive work of paul ricoeur selecting thirteen points of genuine advance his work makes with a glossary of fifty technical terms this is a volume that will prove helpful to student and scholar alike

general and scholarly interest in revelation has never been greater this is a specially commissioned set of state of the art studies on the most important aspects of revelation and its significance for the 21st century by the world s leading scholars the studies can be grouped in relation to three main themes strategies of interpretation theological literary feminist metaphorical the nature of the violent imagery and passages of particular interest the letter to laodicea praise and politics old testament allusions the

second coming of christ this book will provide an invaluable resource for researchers and students alike

the four essays that make up this volume are based upon and expand the lectures ricoeur delivered at texas christian university 27 30 november 1973 as their centennial lectures they may be read as separate essays but they may also be read as step by step approximations of a solution to a single problem that of understanding language at the level of such productions as poems narratives and essays whether literary or philosophical in other words the central problem at stake in these four essays is that of works in particular that of language as a work

as a holocaust survivor neurologist and psychiatrist dr viktor e frankl had a personal stake in the effectiveness of his approach to psychology he lived the suffering about which he wrote with this new reading of the book of job lewis further develops frankl s concept of logotherapy as a literary hermeneutic presenting readers with the opportunity to discover unique meanings and clarify their attitudes toward pain guilt and death key issues emerge from the discussion of three different movements which address frankl s concept of the feeling of meaninglessness and his rejection of reductionism and nihilism the dual nature of meaning and his ideas of ultimate meaning and self transcendence discovering meaning through participation with the text enables us to see that job s final response can become a site for transcending suffering

this book offers a unique account of the role imagination plays in advancing the course of freedom s actualization it draws on paul ricoeur s philosophical anthropology of the capable human being as the staging ground for an extended inquiry into the challenges of making freedom a reality within the history of humankind this book locates the abilities we exercise as capable human beings at the heart of a sustained analysis and reflection on the place of the idea of justice in a hermeneutics for which every expectation regarding rights liberties and opportunities must be a hope for humanity as a whole the vision of a reconciled

humanity that for ricoeur figures in a philosophy of the will provides an initial touchstone for a hermeneutics of liberation rooted in a philosophical anthropology for which the pathétique of human misery is its non or pre philosophical source by setting the idea of the humanity in each of us against the backdrop of the necessity of preserving the tension between the space of our experiences and the horizons of our expectations the book identifies the ethical and political dimensions of the idea of justice s federating force with the imperative of respect paul ricoeur s philosophical anthropology as hermeneutics of liberation will be of interest to scholars and advanced students working in hermeneutics phenomenology ethics political theory and aesthetics

hermeneutics and phenomenology in paul ricoeur between text and phenomenon calls attention to the dynamic interaction that takes place between hermeneutics and phenomenology in ricoeur s thought it could be said that ricoeur s thought is placed under a twofold demand between the rigor of the text and the requirements of the phenomenon the rigor of the text calls for fidelity to what the text actually says while the requirement of the phenomenon is established by the husserlian call to return to the things themselves these two demands are interwoven insofar as there is a hermeneutic component of the phenomenological attempt to go beyond the surface of things to their deeper meaning just as there is a phenomenological component of the hermeneutic attempt to establish a critical distance toward the world to which we belong for this reason ricoeur s thought involves a back and forth movement between the text and the phenomenon although this double movement was a theme of many of ricoeur s essays in the middle of his career the essays in this book suggest that hermeneutic phenomenology remains implicit throughout his work the chapters aim to highlight in much greater detail how this back and forth movement between phenomenology and hermeneutics takes place with respect to many important philosophical themes including the experience of the body history language memory personal identity and intersubjectivity

early childhood education in western society has come under increasing scrutiny by governments that see early education as an important factor in economic growth and development thus social traditions in the field are increasingly giving way to an intensified focus on marketization and regulation but with a corresponding diminishing concern for ethics and social participation drawing on the work of contemporary french philosopher paul ricoeur sandy farquhar analyzes the problematic way in which we become who we are and the discourse that surrounds that learning the book explores the ethical basis of identity formation in early childhood education and seeks fresh alternatives to commonly accepted perspectives on social policy education and the nature of our selves farquhar uses aotearoa new zealand bicultural curriculum and policy context as examples for developing the theme of curriculum as a contest of ideas and a powerful form of resistance promoting the importance of narrative in understanding identity formation the book elaborates on contemporary themes of difference ethics and social justice calling for a revitalized sense of liberalism and social democracy

ricoeur hermeneutics and globalization explores the philosophical resources provided by paul ricoeur s hermeneutics in dealing with the challenges of a world framed by globalization bengt kristensson ugglas reflections start from an understanding of globalization as an age of hermeneutics linking the seldom related problematic of globalization with hermeneutics through ricoeur s concept of interpretation the book proceeds to embrace lifelong learning as the emerging new life script of the globalized knowledge economy the post national memory wars generated by the celebration of national anniversaries and the need for orientation in a post modern world order the author argues that ricoeur s hermeneutics provide intellectual resources of extraordinary importance in coping with some of the most important challenges in the contemporary world

in the 21st century preaching on race and racialization requires consistent engagement at the intersection of texts contexts and

identity race preaching and ricoeur provides hope for a renewed homiletic capable of engaging race across different communities

this book examines the later work of paul ricoeur particularly his major work time and narrative the essays including three pieces by ricoeur himself consider this important study extending and developing the debate it has inspired time and narrative is the finest example of contemporary philosophical hermeneutics and is one of the most significant works of philosophy published in the late twentieth century paul ricoeur's study of the intertwining of time and narrative proposes and examines the possibility that narrative could remedy a fatal deficiency in any purely phenomenological approach he analysed both literary and historical writing from proust to braudel as well as key figures in the history of philosophy aristotle augustine kant hegel husserl and heidegger his own recognition of his limited success in expunging aporia opens onto the positive discovery of the importance of narrative identity on which ricoeur writes here other contributors take up a range of different topics tracing ricoeur's own philosophical trajectory reflexively applying the narrative approach to philosophy or to his own text reconstructing his dialectic of sedimentation and tradition an essential companion to time and narrative this collection also provides an excellent introduction to ricoeur's later work and to contemporary works in philosophical hermeneutics

paul ricoeur 1913 2005 was one of the most prolific and influential french philosophers of the twentieth century in his enormous corpus of work he engaged with literature history historiography politics theology and ethics while debating truth and ethical solutions to life in the face of widespread and growing suspicion about whether such a search is either possible or worthwhile in ricoeur and the hermeneutics of suspicion alison scott baumann takes a thematic approach that explores ricoeur's lifelong struggle to be both iconoclastic and yet hopeful and avoid the slippery slope to relativism through an examination of the

hermeneutics of suspicion the book reveals strong continuities throughout his work as well as significant discontinuities such as the marked way in which he later distanced himself from the hermeneutics of suspicion and his development of new devices in its place while seeking a hermeneutics of recovery scott baumann offers a highly original analysis of the hermeneutics of suspicion that will be useful to the fields of philosophy literature theology and postmodern social theory

this book provides a perceptive analysis of the narrative turn that led paul ricoeur to his magisterial work time and narrative ricoeur has for many years explored the intersections of diverse strands of european philosophy but it is his recent work that has attracted the most discussion and engendered the most debate in europe and america the narrative path explores the roots and meaning of that work two of the book s five essays reach back to ricoeur s earlier work to clarify his themes richard kearney concentrates on the role of imagination in hermeneutics and maria villela petit explores the development of ricoeur s concept of history from history and truth to time and narrative two essays analyze the significance of ricoeur s reflections on metaphoric and narrative language serge mellinger looks at the relationship between time and poetry from the point of view of ricoeur s discussions of the connection between time and narrative and t peter kemp extends ricoeur s analysis to argue that narration is indispensable to ethics the book concludes with a reflection by ricoeur himself on the linguistic practical and ethical dimensions of human beings and with a bibliography of ricoeur s work in english t peter kemp teaches in the department of philosophy at the university of copenhagen the narrative path is based on a special issue of the journal philosophy and social criticism edited by david rasmussen who is professor of philosophy at boston college
