where the new world is assesses how fiction published since 1980 has resituated the u s south globally and how earlier twentieth century writing already had done so in ways traditional southern literary studies tended to ignore martyn bone argues that this body of fiction has over the course of some eighty years challenged received readings and understandings of the u s south as a fixed place largely untouched by immigration or even internal migration and economic globalization the writers discussed by bone emphasize how migration and labor have reconfigured the region s relation to the nation and a range of transnational scales hemispheric jamaica the bahamas haiti transatlantic black atlantic denmark england mauritania and transpacific global southern australia china vietnam writers under consideration include zora neale hurston nella

larsen john oliver killens russell banks erna brodber cynthia shearer ha jin monique truong lan cao toni morrison peter matthiessen dave eggers and laila lalami the book also seeks to resituate southern studies by drawing on theories of scale that originated in human geography in this way bone also offers a new paradigm in which the u s south is thoroughly engaged with a range of other scales from the local to the global making both literature about the region and southern studies itself truly transnational in scope

a fascinating and enticing vision of the utopian new world that robert Zubrin believes could and should be created on the red planet martin rees the world's leading expert on the human settlement of mars explains what martian societies will look like sooner than we think within a few years humans will be able to voyage to mars spacex is at the forefront of companies already building fleets of spaceships to make interplanetary travel as affordable as old world passage to america to the then new world we will settle the red planet transforming its raw materials into resources and tackling the challenges that await us creating a new frontier for humankind dr robert Zubrin explains how populous martian city states will emerge producing their own air water food power and more how they must be beautiful to attract settlers and what that might look like how the primary exports are unlikely to be material goods but intellectual products created by a technically adept population in a frontier environment where people will be forced to innovate including gmos robotics ai and power production Zubrin even predicts the red planet's customs social relations and government of the people by the people for the people with inalienable individual rights that will overcome traditional forms of oppression to draw talented earth immigrants in 1776 thomas paine wrote we have it in our power to begin the world over again Zubrin inspires us to embrace another magnificent future today with the right pieces in place his red planet will become a pressure cooker for invention benefiting humans on earth mars and beyond the new world on mars proves that there is no point killing each other over provinces on earth when together we can create planets

two issues are bothering the humanity at present firstly the contemporary national and international scenarios in socioeconomic political ethnic and cultural domains are throwing up many issues problems and challenges relating to development environment human rights human security communal harmony peaceful coexistence among nations and world peace and security secondly existing global institutions are proving to be wanting in their structures and authorities in solving these problems alternatively a new global independent organization with enforcing authority is needed to act upon and solve these issues the need for replacement of uno seems to be justified because of failure to solve global problems the nineteenth and twentieth centuries witnessed revivals of proposals for world government that were fueled by positive developments

such as technological progress in travel and communications that enabled rapid economic globalization as well as negative developments such as the devastating impact of wars fought with modern technology the author s approach of the formation of the world parliament is through proportional representation of nation s parliaments thus avoids direct election process for its formation all the nations and their people s representatives are involved in the formation of the world parliament and the world government based on this line of thinking the structure for a new federal world government and the new federal world constitution are presented in this book

comprehensive study of australia s role in the peace enforcement operations that developed at the end of the cold war

as democracy is perfected the office of president represents more and more closely the inner soul of the people on some great and glorious day the plain folks of the land will reach their heart s desire at last and the white house will be adorned by a downright moron h l mencken the moronarchy is upon us welcome to the dumbocalypse the dumbageddon conspiracy has finally paid off freedumb and dumbocracy have reached their logical conclusion how did we get here we can thank the dunning kruger effect the most powerful and disturbing force in the world today the force of human stupidity the greatest destroyer and wrecker there has ever been come and explore the bizarre world of idiots of the confederacy of dunces of the dunciad

bring the action and adventure of u s history into the classroom with u s history maps for grades 5 and up from the ice age to the admission of the 50th state this fascinating 96 page book enhances the study of any era in u s history the maps can be easily reproduced projected and scanned and each map includes classroom activities and brief explanations of historical events this book covers topics such as the discovery of america spanish conquistadors the new england colonies wars and conflicts westward expansion slavery and transportation the book includes answer keys

some structural features of languages predict others some remain unchanged in daughter languages others have an areal consistency in establishing typologically historically and geographically stable features in the worlds languages examples are included from kayardild djingili dyirbal mangarayi maung ngiyambaa

explores the origins of north american native peoples in addition to studying their customs and cultures before and after contact with the white man
