how can christians committed to the classical christian tradition address the issues raised by contemporary islam before a much needed dialogue between christians and muslims is established christians need to ask themselves how their scriptures and traditions might come to bear on such a dialogue do the divisions among catholic and evangelical christians fracture the classical christian tradition in ways that undercut christian muslim dialogue before it has even begun or could the classical tradition

provide invaluable resources for resolving divisions between catholic and evangelical christians in ways that would prepare them for meaningful conversation with muslim brothers and sisters and what does it have to teach us about what christians can and must learn from muslims about their own traditions the scholarly essays compiled in christian theology and islam consider these and further questions offering valuable insight for concerned christians and academics in the fields of theology and religion

an enlightening commentary on merold westphal s intricate thought and provokes new questions concerning the original project of his diverse philosophy b keith putt editor of the future of continental philosophy of religion merold westphal is considered to be one of the preeminent continental philosophers of religion his articulation of faith as the task of a lifetime has become a touchstone in contemporary debates concerning faith s relationship to reason as justin sands explores his philosophy he illuminates how westphal s concept of faith reveals the pastoral theological intent behind his thinking sands sees westphal s philosophy as a powerful articulation of protestant theology but one that is in ecumenical dialogue with questions concerning apologetics and faith s relationship to ethics and responsibility a more catholic point of view by bringing out these features in westphal s philosophy sands intends to find core philosophical methodologies as well as a passable bridge for philosophers to cross over into theological discourses an engaging and illuminating work william desmond david cook chair in philosophy villanova university professor of philosophy institute of philosophy ku leuven belgium a long overdue critical homage to one of the bravest religious thinkers of our generation richard kearney charles b seelig chair of philosophy at boston college

when this book was originally published in 1957 there had been lively debates on the air and in the press about the bearing of modern philosophy upon christianity but there had been relatively little sustained discussion of the subject this book of essays was the product of a small group of oxford philosophers and theologians who had met and talked informally for some years before writing it it is an attempt to discuss with care and candour some of the problems raised for christian belief by contemporary analytical philosophy in asking the questions raised this book makes articulate the perplexities of many intelligent people both believers and unbelievers the contributors concentrate on the way such concepts as god revelation the soul grace are actually used rather than asserting or denying some very general theory of meaning

the dominant position of science in our culture has ended in our postmodern world belief that science will provide the answer to our problems and that progress is inevitable has been shaken if not toppled optimism has been replaced by realism creating a milieu for the development of intelligent christian belief participating in the

trinity institute's conference on the church in a postmodern age these six prominent scholars explore the breakdown of the basic tenets of the enlightenment the sorry state of biblical literacy in our culture christian faith in a pluralistic world the relevance of the bible today and the role of the church in our age contributors robert n bellah diogenes allen george a lindbeck james b miller sandra m schneiders and rowan d williams

there are deep and pervasive disagreements today in universities and colleges and popular culture in general over the credibility and value of belief in god this has given rise to an urgent need for a balanced comprehensive accessible resource book that can inform the public and scholarly debate over theism while scholars with as diverse interests as daniel dennett terry eagleton richard dawkins jrgen habermas and rowan williams have recently contributed books to this debate theism as a concept remains poorly understood and requires a more thorough and systematic analysis than it has so far received in any single volume the routledge companion to theism addresses this need by investigating theism's history as well as its relationship to inquiry in the sciences social sciences and humanities and to its wider cultural contexts the contents are not confined within the philosophy of religion or even within the more expansive borders of philosophy rather the routledge companion to theism investigates its subject through the lens of a wide variety of disciplines and explores the ramifications of theism considered as a way of life as well as an intellectual conviction the five parts of the volume indicate its inclusive scope i what is theism ii theism and inquiry iii theism and the socio political realm iv theism and culture v theism as a way of life the result is a well ordered and thorough collection that should provide a wide spectrum of readers with a better understanding of a subject that's much discussed but frequently misunderstood as the editors note in their introduction while stimulating and informing the contemporary debate a key aim of the volume is to open new avenues of inquiry into theism and thereby to encourage further research into this vital topic comprised of 54 essays by leading scholars in philosophy history theology religious studies political science education and sociology the routledge companion to theism promises to be the most useful comprehensive resource on an emerging subject of interest for students and scholars

philip kennedy here offers the first book that any student with or without religious convictions can profitably use to get quickly to grips with the essentials of the christian religion its history and its key thinkers its successes and its failures most existing undergraduate textbooks of theology begin from essentially traditional positions on the bible doctrine authority interpretation and god what makes philip kennedy's book both singularly important and uniquely different is that it has a completely new starting point the author contends that traditional christian theology must extensively overhaul many of its theses because of a multitude of modern social historical and

intellectual revolutions offering a grand historical sweep of the genesis of the modern age and writing with panache and a magisterial grasp of the relevant debates conflicts and controversies a modern introduction to theology moves a tired and increasingly incoherent discipline in genuinely fresh and exciting directions and will be welcomed by students and readers of the subject

often christian interfaith engagement has been viewed through the lense of theology of religions where the primary questions are often about the salvific destiny of people of other faiths faith hope and love offers an alternative approach asking how do christian interfaith practitioners live out their discipleship in a multi faith world and what theologically is being expressed in their activity demonstrating a new and innovative approach to interfaith engagement this book argues for theological reflection on the multi faith reality of our society to focus on the practice of christian interfaith engagement drawing on the methodology of practical theology to explore the impact of encounter on christian self understanding it suggests that other faith traditions are no longer a theological problem to be solved or people to be saved but a potential means of grace in which the christian disciple learns more about god and grows in their relationship with christ
