jesus warned the world would hate christians if the world hates you know that it has hated me before it hated you john 15 18 as cultural hostility toward christianity intensifies many christians have grown more reluctant to advocate for biblical values in the public square but our perseverance for the common good a good defined by god alone is more important than ever in a culture that embraces darkness when culture hates you is a call for christians to unashamedly pursue righteousness in society out of our love for others in this timely resource author natasha crain will help you make sense of cultural hostility by better understanding the roots of secular outrage on issues like christian nationalism social justice

abortion transgenderism and sexuality advocate for the godly functioning of society with greater biblical cultural and civic understanding take concrete action for the common good with more than 35 practical ideas to get you started as christians our calling is to speak truth in the face of hostility not because we want to war with culture but because we love both god and others

regulatory problems defined as excessive crying sleeping or feeding problems are among the most common concerns of parents with children 0 5 years old these problems are typically understood within the context of the parent child relationship however the complex underlying mechanisms that explain the occurrence and continuation as well as long term outcomes of regulatory problems are still poorly understood despite some promising treatment options important knowledge gaps remain to be addressed which will inform evidence based practice for services of children aged 0 5 with this research topic we aim to bring together research from different countries and from multidisciplinary research backgrounds on the topic of regulatory problems and disorders we particularly encourage research that focuses on observed parent child interactions in relation to regulatory problems we view regulatory problems as a transdiagnostic biopsychosocial concept covering excessive crying sleeping and or feeding and eating problems however studies with a focus on any of these problems are also encouraged
