Harry Truman's administration began searching for an American response to the clash in Indochina between French colonialism and Viet Minh communism in 1945. Thirty years and five administrations later, Gerald Ford and his aides tried unsuccessfully to solicit additional aid for South Vietnam from a reluctant Congress. For Truman, Ford, and every American leader in between, the dilemma in Vietnam hung ominously over the presidency in shadow on the White House. Seven prominent historians examine how the leadership of six presidents and an issue that grew into a difficult and often unpopular war shaped each other, focusing on the personalities, politics, priorities, and actions of the presidents as they confronted Vietnam. The authors consider the expansion of presidential power in foreign policy formulation since World War II. In their analyses, they chronicle the history of executive leadership as it related to Vietnam, assess presidential prerogatives and motives on war and peace issues, and clarify the interconnection between the modern presidency and the nation's frustrating, tragic, and humiliating failure in Southeast Asia. Although other histories have been written about the Vietnam experience, this book is the first systematic and comparative survey on presidential leadership as it relates to the war issue. It is organized by presidential administrations, giving a detailed examination of each president's decisions and policies based on the most recently opened archival sources. The essays provide a framework on which to hang the kaleidoscopic events of the war. [amazon.com](http://www.amazon.com)
