inspired by authentic korean arts and crafts dating from the 1st through the 19th centuries these 142 bold black and white line drawings include abstract forms costumed figures birds flowers and landscapes in many sizes and shapes all royalty free

examples of ornaments and their applications to decorate art throughout the ages for artists craftsmen designers etc

while earlier studies have focused predominantly on artist françois boucher s artistic style and identity this book presents the first full length interdisciplinary study of boucher s prolific collection of around 13 500 objects including paintings sculpture prints drawings porcelain shells minerals and other imported curios it discusses the types of objects he collected the networks through which he acquired them and their spectacular display in his custom designed studio at the louvre where he lived and worked for nearly two decades this book explores the role his collection played in the development of his art his studio his friendships and the burgeoning market for luxury goods in mid eighteenth century france in doing so it sheds new light on the relationship between boucher

s artistic and collecting practices which attracted both praise and criticism from period observers the book will appeal to scholars working in art history museum studies and french history

drawing on the fields of design history and the history of science this book examines the important role that botanical science played in the emergence of victorian design theory in early 19th century britain a rapid influx of plants from other countries began to confuse the orders of classification as these new specimens arrived in nurseries and conservatories botanists revised and promoted a new taxonomy the natural system in parallel in 1835 british manufacturers faced a government inquiry in order to improve the output of the british design industry they needed a nationally identifiable design aesthetic and the inquiry led to the creation of the government schools of design and the design reform movement this book explores how whilst botanists used drawings to clarify new systems of plant classification designers learnt art botany the practice of basing decorative form and ornament on the hidden natural laws that govern plant growth and structure design reformers used botany as a model for how to create and identify what is new and incorporate it into what was already familiar and meaningful all within the purview of developing a professional field of practice sarah alford provides a rich interdisciplinary study of how the fields of design and botanical science came together through a framework of material culture alford sheds new light on the work of leading botanists designers and illustrators such as sarah drake john lindley richard redgrave owen jones and christopher dresser this book reveals how the designation of what design reformers deemed appropriate for the surface decoration of material structures as varied as carpets jugs wallpaper and furniture was an embrace of botanical science as a source of fantasy and imagination
