most public finance books are texts which are aimed at undergraduate or graduate students they are overly technical in nature and appeal only to a narrow range of bureaucrats and academics books on taxation are written for tax practitioners and usually emphasize either what the law is or how to maneuver through the labyrinth of tax law to minimize taxes for clients philosophy books on taxation or public finance simply do not exist the philosophy of taxation and public finance is different it is written in nontechnical language and is aimed to appeal to a wide range of readers including practitioners academics and students in the fields of taxation public finance economics law philosophy and political science as well as general readers who are interested in learning why they are being taxed the way they are the author addresses the major issues and topics in taxation and public finance and injects them with philosophical insights he discusses questions such as what arguments have been used to justify taxation when is tax evasion unethical are some taxes better than others what are the proper functions of government how much is enough is the ability to pay concept valid when can punitive taxes be justified

printed study guide the study guide provides chapter reviews study exercises true false and multiple choice questions

many books have been written about tax reform but none offer the pragmatic and understandable approach that youll find in this treatise filled with a nonpartisan set of solutions to fix an antiquated and indecipherable tax system James C. Tanner a certified public accountant with more than four decades of experience explores how we can create a fair and logical tax framework by rethinking income exclusions deductions credits tax brackets capital gains and other tax alternatives reform tax expenditures including health insurance and medical costs home mortgage and other interest deductions retirement plan deductions charitable donations and capital gains on assets sold and transferred lower the tax rates for most individual and corporate taxpayers while making our us companies more competitive with their foreign counterparts Tanner also outlines how historical decisions and legislative proposals led to our current tax laws under the premise that we cant fix them without understanding why they were created in the first place for those who want to participate in the national debate on federal tax reform it begins with a firm understanding of the system and the practical proposals in tax reform with the 20/20 tax

the text emphasizes those areas of taxation generally accepted as essential to the education of those pursuing careers in taxation or tax related fields the first eight chapters are devoted to the tax problems of regular corporations and their shareholders these chapters are followed by a separate chapter examining the special problems of international taxation an area of growing importance two chapters consider the taxation partnerships and partners while one chapter examines s corporations federal estate and gift taxation is discussed in one chapter two additional chapters contain the related topics of the income taxation of estates trusts and beneficiaries and the major aspects of family tax planning for those students who have not had previous exposure to tax research a separate chapter provides an introduction to this important topic the skills explained in this chapter may be applied to the research questions contained at the end of most chapters in addition a chapter is devoted to the procedural aspects of taxation including the special concerns for those involved in tax practice the scope of this text is intentionally broad to accommodate a variety of uses and to provide flexibility for instructors in designing advanced tax courses it is neither our intention nor our belief that all of the contents can or should be covered in a single three semester hour course the sheer technical detail of the material presented is obviously more than can be covered in one course without selective pruning our hope is that instructors can adapt the text to satisfy their varying needs in this regard the ample coverage of what we believe are the most relevant topics filled with examples and exhibits should meet the desires of the most demanding users
