a comprehensive anthology that draws together leading philosophers writing on the major topics within philosophy of mind

organized around such themes as harmony with one's self and with the world religious ways of life the use of reason self exploration self realization and social involvement the selections in this anthology edited and introduced by charles guignon explore traditional and recent philosophical thought on the topic of human flourishing

comprised of readings from ancient to modern times this volume offers a comprehensive introduction to the central questions of the philosophy of religion provides a history of the philosophy of religion from antiquity up to the twentieth century each section is preceded by extensive commentary written by the editors followed by readings that are arranged chronologically designed to be accessible to both undergraduate and graduate students

philosophy of mind contemporary readings is a comprehensive anthology that draws together leading philosophers writing on the major topics within philosophy of mind robb and o'connor have carefully chosen articles under the following headings substance dualism and idealism materialism mind and representation consciousness each section is prefaced by an

introductory essay by the editors which guides the student gently into the topic in which leading philosophers are included the book is highly accessible and user friendly and provides a broad ranging exploration of the subject ideal for any philosophy student this book will prove essential reading for any philosophy of mind course the readings are designed to complement john heil s philosophy of mind a contemporary introduction second edition routledge 2003 although the anthology can also be used as a stand alone volume

reading philosophy of religion combines a diverse selection of classical and contemporary texts in philosophy of religion with insightful commentaries offers a unique presentation through a combination of text and interactive commentary provides a mix of classic and contemporary texts including some not anthologized elsewhere includes writings from thinkers such as aquinas boethius hume plantinga and putnam divided into sections which examine religious language the existence of god reason argument and belief divine properties and religious pluralism

a key introductory philosophy textbook making use of an innovative interactive technique for reading philosophical texts reading philosophy selected texts with a method for beginners second edition provides a unique approach to reading philosophy requiring students to engage with material as they read it contains carefully selected texts commentaries on those texts and questions for the reader to think about as they read it serves as starting points for both classroom discussion and independent study the texts cover a wide range of topics drawn from diverse areas of philosophical investigation ranging over ethics metaphysics epistemology philosophy of mind aesthetics and political philosophy this edition has been updated and expanded new chapters discuss the moral significance of friendship and love the subjective nature of consciousness and the ways that science might explore conscious experience and there are new texts and commentary in chapters on doubt self and moral dilemmas guides readers through the experience of active engaged philosophical reading presents significant texts contextualized for newcomers to philosophy includes writings by philosophers from antiquity to the late 20th century contains commentary that provides the context and background necessary for discussion and argument prompts readers to think through specific questions and to reach their own conclusions this book is an ideal resource for beginning students in philosophy as well as for anyone wishing to engage with the subject on their own

this collection of readings shows how cognitive science can influence most of the primary branches of philosophy as well as how philosophy critically examines the foundations of cognitive science its broad coverage extends beyond current texts that focus mainly on the impact of cognitive science on philosophy of mind and philosophy of psychology to include materials that are relevant to five other branches of philosophy epistemology philosophy of science and mathematics metaphysics language and ethics the readings are organized by philosophical fields with selections evenly divided between philosophers and cognitive scientists they draw on research in numerous areas of cognitive science including cognitive psychology developmental psychology social psychology psychology of reasoning and judgment artificial intelligence linguistics and neuropsychology there are timely treatments of current topics and debates such as the innate understanding of number children s theory of mind self knowledge consciousness connectionism and ethics and cognitive science

fifty readings in philosophy is a flexible and affordable collection of classic and contemporary primary sources in philosophy the readings cover all the main topics of western philosophy each one carefully edited to be long enough to present a self contained argument but not so lengthy that students lose track of the main point introductions and explanatory notes make the readings accessible to students all these features have made this book a proven pedagogical success and a best selling reader in introductory philosophy

the buddhist philosophical tradition is vast internally diverse and comprises texts written in a variety of canonical languages it is hence often difficult for those with training in western philosophy who wish to approach this tradition for the first time to know where to start and difficult for those who wish to introduce and teach courses in buddhist philosophy to find suitable textbooks that adequately represent the diversity of the tradition expose students to important primary texts in reliable translations that contextualize those texts and that foreground specifically philosophical issues buddhist philosophy fills that lacuna it collects important philosophical texts from each major buddhist tradition each text is translated and introduced by a recognized authority in buddhist studies each introduction sets the text in context and introduces the philosophical issues it addresses and arguments it presents providing a useful and authoritative guide to reading and to teaching the text the volume is organized into topical sections that reflect the way that western philosophers think about the structure of the discipline and each section is introduced by an essay explaining buddhist approaches to that subject matter and the place of the texts collected in that section in the enterprise this volume is an ideal single text for an intermediate or advanced course in buddhist philosophy and makes this tradition immediately accessible to the philosopher or student versed in western philosophy coming to buddhism for the first time it is also ideal for the scholar or student of buddhist studies who is interested specifically in the philosophical dimensions of the buddhist tradition
