libby libby short wrote this text based on their belief that the subject of financial accounting is inherently interesting but financial accounting textbooks are often not they believe most financial accounting textbooks fail to demonstrate that accounting is an exciting field of study and one that is important to future careers in business when writing this text they considered career relevance as their guide when selecting material and the need to engage the student as their guide to style pedagogy and design libby libby short is the only financial accounting text to successfully implement a real world single focus company approach in every chapter students and instructors have responded very favorably to the use of focus companies and the real world financial statements the companies chosen are engaging and the decision making focus shows the relevance of financial accounting regardless of whether or not the student has chosen to major in accounting

this text has a user oriented approach which does not include debit and credits in the chapters it also does not include traditional accounting cycle chapters ratio analysis is introduced early and is integrated throughout every chapter early presentation of financial statements ch 3 with an emphasis on understanding the financial statements not their preparation financial reporting sections of four corporate annual reports are included in an end of text appendix and are referenced throughout the chapters careers in accounting appendix gives an optional chapter length perspective on accounting as a major field of study or as a profession this text also includes internet assignment material

volumes for 2012 contain only executive summaries of articles
