william godwin is one of the most important figures of the romantic period he wrote four plays at the end of the 18th beginning of the 19th centuries this book has two main objectives to provide the first comprehensive discussion of these four plays and to consider the notion of theatricality in relation to godwin s political project

this book explores the lifelong dialogue between thomas robert malthus and the libertarian anarchist william godwin shedding light on important topics in the history of economic and political thought it examines godwin s rejection of the new industrial order and his insights into a post acquisitive post conflictual future it shows that malthus felt godwin had neglected the ever increasing pressure of population on scarce food and that control could not be superseded by automaticity so long as the productivity of the land was limited by the law of nature godwin and malthus situated their views on population in the broader context of individual choice property rights normative constraint and the status of the poor godwin and malthus were committed to an economy that was equitable as well as efficient their proposals for social

betterment make the book relevant to contemporary debates even as it sheds light on two giant thinkers of the past

godwin and the book explores a network of controversies concerning the relationship of media form to social futurity in romantic period britain through the writing of the notorious philosopher novelist william godwin 1756 1836 it offers a fresh reading of godwin s fifty year corpus using evidence from his fiction philosophy and essays to argue that throughout his career he figured books and reading in particular ways in order to defend a set of inherited beliefs about intellectual perfectibility in the process it highlights many wider debates that marked out the culture of this period including disagreements over the physiology of the mind the ethics of novel reading and the social consequences of death and considers how these debates were intertwined with the formal development of british prose in the period

first comprehensive monograph about the tropical architecture of godwin and hopwood in nigeria after studying at the architectural association in london john godwin and gillian hopwood moved to nigeria where they significantly shaped the country s architectural landscape for more than sixty years when nigeria became independent in 1960 following british dominance since the 19th century the couple worked to create architecture that was site specific modern and adapted to the climate relevant to reinforce nigeria s aspirational political and economic policies in this richly illustrated monograph organised by typology ben tosland examines godwin and hopwood s form of tropical modernism and illuminates its contemporary meanings concluding with its relevance in times of climate crisis first comprehensive monograph about the architecture of godwin and hopwood image rich publication on one of the most important architectural practices for post colonial independent nigeria insightful findings for passive structural cooling techniques
