in this book we capture and explore different aspects of value in corporate social responsibility csr this includes the historical development of value in csr how value is linked to a positive vision of the future and how it is communicated by a range of private and public organisations to various audiences the book contrasts corporate strategic value with co operative value and community value in the context of sustainable development it explains how leaders values can drive responsible business practice and enhance social cohesion solidarity and resilience in fractured and unequal communities the book asks the reader to consider what value means in csr for business and society where it comes from and how it is enacted alongside its broader purpose and value to the community finally the book presents csr as a global project by noting how values are cultural and how sustainability has become an

urgent international priority

the primary contribution of this book is to integrate the important disciplines which simultaneously impact the investment appraisal process the book presents a study that develops a new approach to investment appraisal which uses a multiple objective linear programming molp model to integrate the selected disciplines which include capital markets corporate governance and capital budgeting the research covers two case studies one in the e commerce sector and another in the airline industry in which the above disciplines are integrated readers from the areas of corporate governance regulation and accounting would find the survey of different approaches and the new integrated optimization approach particularly useful

register of practitioners of accountancy iowa regulatory accountancy law and iowa board of accounting policies and rules of professional conduct

the contributors to this volume present a thorough overview of recent developments in the area of international accounting

in line with the multi disciplinary nature of network research this edited volume collects both empirical and conceptual contributions that nurture the debate on network research specifically dealing with the topics of network performance and agency the contributions draw on different literatures and epistemic approaches and address different levels of analysis both from a static and a dynamic point of view it will be of great interest to academics and students developing research in the field of network studies it will also be of interest to scholars of operations management organization studies strategy innovation financial management and business history

this book bringing together selected papers from the 5th international conference on research in management and technovation explores the global impact of technology corporate management and innovation in a time of fast growth and widespread tech use the relationship between business and technology has transformed at a rapid pace from computers and automation to dealing with the effects of covid 19 it highlights the need for forward thinking leaders both new and established companies now prioritize blending business and technology in their plans stressing the importance of creative strategies the conference promotes an interdisciplinary approach looking at how these areas connect instead of keeping them separate beyond common tech practices like virtual meetings the book shows how business and technology affect decision making in uncertain situations the research shared in this book focuses on making practical plans for progress using innovations and technology seeing them as crucial tools for society and organizations technology is portrayed as a helpful tool allowing managers strategists and researchers to make smart decisions that demonstrate the strength of business and technology in a constantly changing global landscape

in a context of growing social and environmental concerns the role of large enterprises and corporations in encouraging sustainability has drawn increasing attention in recent years both academic debates and public opinion research have called into question the extended responsibilities of firms in our increasingly interconnected world by studying issues associated with the greatest challenges mankind is currently facing from climate change to social exclusion the scientific community is aware of the need to account for the actions and agendas of companies especially large ones they are becoming important global political actors with great power but also unprecedented responsibilities with this in mind the authors believe that it is more important than ever that large enterprises on the one

hand take into account the opinion of their stakeholder while defining their strategies and on the other hand disclose material and relevant information on their ability to contribute to sustainability while delivering value for all of their stakeholders a consensus is being reached on the responsibility of large enterprises to report in a triple bottom perspective not only on their financial performances but also on their social and environmental outcomes consequently it is important to understand what elements organizations need to report on in order to provide stakeholders with relevant and comprehensive sustainability reports against this background this book presents a significant and original contribution both empirically and theoretically to the social and environmental accounting literature by studying the various features of stakeholder engagement in sustainability reporting

the increasing pace of global conformance towards the adoption of international financial reporting standards ifrs highlights the need for accounting students as well as accounting practitioners to be conversant with ifrs teaching ifrs offers expert descriptions of and insights into the ifrs convergence process from a teaching and learning perspective hence this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world the contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of ifrs and their adoption drawing upon the experiences of those who have sought to introduce ifrs related classroom innovations and the associated student outcomes achieved therefrom the book offers suggestions about how to design and deliver courses dealing with ifrs and catalogues extensive listings of ifrs related teaching resources to support those courses this book was originally published as a special issue of accounting education an international journal

as an emerging global phenomenon islamic economics and the financial system has expanded exponentially in recent decades many components of the industry are still unknown but hopefully the lack of awareness will soon be stilled the handbook of research on theory and practice of global islamic finance provides emerging research on the latest global islamic economic practices the content within this publication examines risk management economic justice and stock market analysis it is designed for financiers banking professionals economists policymakers researchers academicians and students interested in ideas centered on the development and practice of islamic finance
