

Financial Accounting Multiple Choice Question With Answer

Financial Accounting Multiple Choice Question With Answer Mastering Financial Accounting A Comprehensive Guide with Multiple Choice Questions and Answers Financial accounting forms the bedrock of any business's financial health. It's the process of recording, summarizing, and reporting a company's financial transactions to external stakeholders like investors, creditors, and government agencies. Understanding its core principles is crucial for anyone involved in business finance or investment. This article aims to provide a comprehensive overview of fundamental financial accounting concepts through multiple-choice questions and detailed answers, supplemented by practical examples and analogies.

I Fundamental Concepts Multiple Choice Questions

1 The Accounting Equation The fundamental accounting equation is Assets = Liabilities + Equity. This equation always holds true and represents the basic structure of a balance sheet. MCQ Which of the following best describes the accounting equation? a Assets = Liabilities + Equity b Assets = Liabilities - Equity c Assets = Liabilities - Equity d Assets = Equity + Liabilities Answer a Assets = Liabilities + Equity This is the rearranged form, but all other options are incorrect in their relationship.

Analogy Think of a house. Assets = The house. Liabilities = represents what you owe, and your equity = the difference between the house's value and the mortgage, which is what you truly own.

2 Debits and Credits Debits increase asset, expense, and dividend accounts, while they decrease liability, equity, and revenue accounts. Credits work the opposite way. MCQ A company purchases equipment for cash. How does this transaction affect the accounting equation? a Increases assets and liabilities b Decreases assets and increases liabilities c Increases assets and decreases liabilities d Increases liabilities and decreases equity Answer c Increases assets and decreases liabilities Equipment (asset) increases and cash (asset) decreases.

3 Accrual vs Cash Basis Accounting Accrual accounting recognizes revenue when earned and expenses when incurred, regardless of when cash changes hands. Cash basis accounting recognizes revenue and expenses only when cash is received or paid. MCQ A company provides services in December but receives payment in January. Under accrual accounting, when is revenue recognized? a January b December c Whenever the company decides d Never Answer b December Revenue is recognized when the service is provided, not when payment is received.

Analogy Imagine a bakery selling bread. Accrual accounting considers the sale complete when the bread is sold, even if the customer pays later. Cash accounting only records the sale once the payment is received.

4 Financial Statements

The three primary financial statements are the balance sheet (snapshot of a company's financial position at a specific point in time), the income statement (shows profitability over a period), and the statement of cash flows (tracks cash inflows and outflows). MCQ Which financial statement shows a company's profitability? a Balance Sheet b Statement of Cash Flows c Income Statement d Statement of Retained Earnings Answer c Income Statement It reports revenues, expenses, and the resulting net income or loss.
