this first of its kind collection vibrates with the high voltage energy of today s most exciting female singer songwriters as they speak out look inside and reveal their lives sarah mclachlan when i sang and played i d get completely lost in what i was doing during that time i was no longer this stupid useless little ten year old who didn t have any friends i was someplace else where none of that could touch me jewel fame exists in other people s minds i can t experience my own fame at all but i experience it in other people s eyes when i look at them and see that they re scared shawn colvin giving up addiction was the springboard into adult thinking i realized that everything was a choice the world was an open book nothing was the same after that sheryl crow i always pictured myself as a loner off living like a jack kerouac character or worse someone out of a charles bukowski book one of those down and outers who works at a gas station and has no one and no family lucinda williams i don t want to offend anyone but i like to push people s buttons while i want to appeal to people in all walks of life i also want to get a response make them think

lennie tristano was one of jazz s most extraordinary innovators possessing a superb piano technique and an awesome musical imagination unheralded by the general public the blind pianist s work was revered by many jazz greats including the legendary charlie parker tristano s persuasive personality made him an ideal teacher and he proved that against the accepted theory of the time jazz improvisation could be taught his guidance played a big part in the development of many instrumentalists including saxophonists lee konitz and warne marsh and double bassist peter ind it is ind s long direct involvement with his subject that makes this such a revealing book the story of an english musician going to new york to study with a neglected jazz giant in the process tristano s genius is examined and his reputation revalued with ind making a persuasive case for the pianist to be placed at the centre of jazz developments in the mid 20th century

this text discusses contemporary issues of curriculum change in higher education and examines various ideas and initiatives concerned with making student learning more effective it addresses curriculum purpose curriculum delivery and curriculum impact on the wider society

evidence based teaching brings together uk developed strategies ideas and advice providing general principles for teaching as well as very specific methods all of which can substantially improve teaching and a few of which are in common use in the uk the book demonstrates how to teach school effectiveness and school improvement research it also shows how to teach thinking skills multiple representations and constructivism the book also examines the best practice in uk university and further education fe teaching

the proceedings of the 79th symposium capture many of the tremendous discoveries currently being made by neuroscientists and psychologists working on cognitive processes at scales varying from the molecular to circuit to whole brain and theoretical studies major advances in understanding cognitive function including learning memory language and decision making are being made through the application of powerful new techniques and approaches the scientific results discussed in this volume shed light on many areas of normal brain function but also offer novel insights into the treatment of psychiatric neurological and neurodegenerative diseases this volume includes state of the art neurobiological research at genetic molecular cellular circuit and whole brain resolution additional chapters address computational neuroscience behavioral and psychophysical studies and evolutionary comparative neuroscience the conversations included in this volume are based on interviews conducted during the symposium and offer a broader anecdotal perspective on this fascinating subject by many of the world s leading cognitive neuroscientists the symposium proceedings provides an integrative overview of the current state of the field as well as a glimpse into the emerging connections between molecular cellular circuit mechanisms and higher brain function by leading authorities in the field
