the fascination with literary dependency in the most popular approaches to the synoptic problem has been built upon a faulty presupposition that oral tradition is incapable of producing the word for word verbal agreement found in the synoptic accounts recent research in the area of oral tradition has shown that this is not the case but we still rely on increasingly complicated literary models to explain the relationships between the synoptic gospels this book engages in comparative analysis of old greek quotations found in more than one of the synoptic gospels along with the material that surrounds these quotations the resulting conclusions indicate that oral sources may better explain the similarities and differences found in the synoptic gospels and that we ought to reexamine our foundational presuppositions in order to craft a better model for understanding the origins of the synoptic gospels the hope is that the reader will join the author in seeking to better understand these books that include the climax of the greatest story of all time the true story of people marred by sin and their creator who seeks after them as he redeems all things to himself

the story of hillel frozen near to death on the snowy roof of the study hall is well known in its details however the story is impossible no one could lay under three cubits of snow overnight and live and jerusalem never receives three cubits of snow certainly not on the night of the winter solstice as recounted in the babylonian talmud five centuries after hillel s birth louis rieser set out to find the real meaning of the legends of hillel what is the talmud trying to teach us about rabbis about leadership about important values this provocative book argues that while the famous legends of hillel may have nothing to teach about hillel s actual biography they have a great deal to teach us about judaism a fresh and engaging reading of the rabbinic biography louis rieser has reopened the rabbinic stories and made them interesting again jacob neusner

a sound approach to overcoming the jewish community s historical exclusion of women must go beyond the current agenda for change to be enduring that agenda must be grounded in an underlying holistic vision or method so reforms are not mere ad hoc improvements that leave an inequitable structure in place accordingly this book examines the methodological options available to contemporary jews evaluating each on the basis of its ability to accommodate the kinds of development modern sensitivities require
