multiculturalism is regarded as a key feature of Canada's national identity yet despite an increasingly diverse population racialized Canadians are systematically excluded from full participation in society through personal and structural forms of racism and discrimination. *Race and Anti-Racism in Canada* provides readers with a critical examination of how racism permeates Canadian society and articulates the complex ways to bring about equity and inclusion both individual and systemically.

As clerk of the House of Commons, Bourinot advised the speaker and other members of the House on parliamentary procedure. He also wrote the standard Canadian work on the subject. A founding member of the Royal Society of Canada, he played a leading role during the society's first twenty years. Ahead of his time in writing intellectual history, Bourinot was also an early supporter of higher education for women. He was a man of contrasts: an early Canadian nationalist as well as an imperialist. In spite of the constitutional changes of 1982, there is still much in Bourinot's writing that is relevant today.

This expanded and updated second edition is a practical text to aid radiation oncologists in evaluating and treating benign diseases. Although a comprehensive review, it remains readily comprehensible and will be recognised as the standard text on the subject.
