this book is a study of the bharata natyam dance genre padam focusing on its patrons and composers and its formal structure texts and music it

examines the rewriting of south indian dance and the decades long debates over the classicization and ownership of south indian music the control over the representation of the arts is a subject that should resonate with scholars working in a wide variety of genres and across many countries the study is diachronic historical and also synchronic examining padams organizational structure as a system importantly the text includes 30 tamil language songs minutely translated and annotated together with a documentation of their performance history in the 20th century classical and modern music composers and performers ethnomusicologists librettists singers choreographers art historians dancers dance scholars and dance teachers will find them useful in giving students a deep contextual understanding of bharata natyam the book will find an enthusiastic readership with dance teachers who are actively training bharata natyam students it will also attract a scholarly audience as an anthropological and historical study of an artistic form which has a high profile in south asia and has become prominent in the growing fields of ethnomusicology dance ethnography and world dance

this book analyses the religious ideology of a tamil reformer and saint ramalinga swamigal of the 19th century and his posthumous reception in the tamil country and sheds light on the transformation of tamil religion that both his works and the understanding of him brought about the book traces the hagiographical and biographical process by which ramalinga swamigal is shifted from being considered an exemplary poet saint of the tamil Šaivite bhakti tradition to a dravidian nationalist social reformer taking as a starting point ramalinga s own writing the book presents him as inhabiting a border zone between early modernity and modernity between hinduism and christianity between colonialism and regional nationalism highlighting the influence of his teachings on politics particularly within dravidian cultural and political nationalism simultaneously the book considers the implication of such an hagiographical process for the transformation of tamil religion in the period between the 19th mid 20th centuries the author demonstrates that ramalinga swamigal s ideology of compassion c̄vak̄rūyam had not only a long genealogy in pre modern tamil Šaivism but also that it functioned as a potentially emancipatory ethics of salvation and caste critique not just for him but also for other tamil and dalit intellectuals of the 19th century this book is a path breaking study that also traces the common grounds between the religious visions of two of the most prominent subaltern figures of tamil modernity iyothee thass and ramalingar it argues that these transformations are one meaningful way for a religious tradition to cope with and come to terms with the implications of historicization and the demands of colonial modernity it is therefore a valuable contribution to the field of religion south asian history and literature and subaltern studies the open access version of this book available at taylorfrancis com books e 9781315794518 has been made available under a creative commons attribution non commercial no derivatives 4 0 license
