excerpt from lessons in psychology though it has not been customary to follow the plan of the lesson unit in teaching above the grades i have ventured to arrange my material according to it since that material is for the most part elementary and long experience has confirmed my opinion that it is helpful in all work in the classroom to follow in spirit at least each day the general plan of the three steps of preparation pre scutation and application in using the lessons in the classroom teachers will find many of them as given too long for one day s work a week is not too much time to spend in reaching for example the law of associations here developed in the first lesson for the formulation of this law pupils will be interested to trace in class and outside many trains of association and to talk about them familiarly as they do about the facts of nature or mathematics and in most of the subjects indeed pupils may spend profitably a much longer time than one lesson in watching giving and discussing their experience before they are led to generalize about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

special deluxe edition of the psychology of money with new additional bonus chapter content from morgan housel the new york times bestselling author hardback limited edition with sprayed edges while supplies last doing well with money isn t necessarily about what you know it s about how you behave and behavior is hard to teach even to really smart people money investing personal finance and business decisions is typically taught as a math based field where data and formulas tell us exactly what to do but in the real world people don t make financial decisions on a spreadsheet they make them at the dinner table or in a meeting room where personal history your own unique view of the world ego pride marketing and odd incentives are scrambled together in the

psychology of money award winning author morgan housel shares 19 short stories exploring the strange ways people think about money and teaches you how to make better sense of one of life s most important topics

excerpt from practical lessons in psychology within the past year the author has at various institutes and other gatherings of teachers delivered lectures on psychology chiefly on those phases that must and do come in for a large share of consideration on the part of every successful teacher the speculative form which psychology sometimes assumes found no place in those discussions but only such features as are quite in touch with the ordinary experience of the average teacher in our common schools the writer was surprised and at the same time very much gratified at the intense interest they evoked at the solicitation of a large number of these same teachers the lectures have accordingly been gathered together and with slight modifications and the advantage of much additional material are now presented in book form the style has not been changed from that employed in the lectures viz simple direct discourse because the author desires that the teachers whom he has already addressed will feel that he had them in mind in preparing this book as he had when writing the original lectures and also that the friendly acquaintance which was thereby established shall in no wise be dampened by the high sounding phrases that are sometimes manufactured into book language the terms mental science and psychology are vague to the person who has not been schooled in the discussions of the purely speculative branches but here we shall dispense with all metaphysical language and get along without technical terms about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

excerpt from lessons in psychology designed especially for private students and as a text book in secondary schools have no doubt that you believe that it is worth while for you to study a great many things which you do not expect to make any practical use of you believe for example that it is a good thing to study algebra and geom etry although i imagine you do not expect to find any use for them in the business of life you want to study them not because you think the knowl edge of them is likely to be useful to you unless you should be called upon to teach them but be cause you think the study o f them will develop your mind probably that is one of the reasons why you wish to study psychology and it certainly is a good reason for studying it i know of no subject about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
