part of the longman library of primary sources in philosophy this first volume of schopenhauer s the world as will and presentation is framed by a pedagogical structure designed to make this important work of philosophy more accessible and meaningful for undergraduates

can the dewey decimal system meet the needs of the rapidly changing information environment moving beyond the presentation layer explores the dewey decimal system from a variety of perspectives each of which peels away a bit of the presentation layerthe familiar linear notational sequence to reveal the content and context offered by the dds library professionals from around the world examine how the content and context offered by the dds can evolve to meet the needs of the changing information environment with a special focus on the impact of the internet on current and future developments moving beyond the presentation layer examines whether the dewey decimal system is a rigid structure best suited to a physical information environment or a polymorphic one that can be adapted to meet a variety of physical and virtual needs this unique book reviews the 40 year history of the online use of classification systems the development of the relative index over 22 editions of the ddc recommendations to ensure the viability of the ddc in a time of mass digitization using dds in an environment where it hasn t been used before teaching the dds special issues related to the use of the dds in europe north america and africa and the future of online classification topics examined in moving beyond the presentation layer include using the ddc as the browsing mechanism for resource discovery classification as an online cataloging tool classification as an online end user tool browser behavior in a ddc based service the role of the dds in the ongoing hilt high level thesaurus project using the dds to organize resources localization and interoperability in knowledge organization mapping terminologies to classification systems the deweybrowser and much more moving beyond the presentation layer is an essential professional resource for librarians information scientists computer scientists and metadata and services specialists

through six articles written at intervals of about a decade between 1960 and 2020 the book provides an account of the author's developing political awareness during the period in the context of political events and changes in this way the book illustrates the social origins of political attitudes while at the same time the articles raise questions about the increasing dominance of political discourse in society the book suggests that politics is now excessively managed by political professionals and that the challenge for reviving democratic participation is to restore the social dimension of state membership
