this is the means to achieving the un endorsed goal of food security

this volume is a pioneering contribution to the study of food politics and critical agrarian studies where food sovereignty has emerged as a pivotal concept over the past few decades with a wide variety of social movements on the ground experiments and policy innovations flying under its broad banner despite its large and growing popularity the history theoretical foundations and political program of food sovereignty have only occasionally received in depth analysis and critical scrutiny this collection brings together both longstanding scholars in critical agrarian studies such as philip mcmichael bina agarwal henry bernstein jan douwe van der ploeg and marc edelman as well as a dynamic roster of early and mid career researchers the ultimate aim is to advance this important frontier of research and organizing and put food sovereignty on stronger footing as a mobilizing frame a policy objective and a plan of action for the human future this volume was published as part one of the special double issue celebrating the 40th anniversary of the journal of peasant studies

indigenous insights for planetary health and sustainable food systems builds upon the indispensable resource indigenous food systems settee and shukla 2020 cultivating new partnerships with scholars community organizations and grassroots practitioners

across the globe this follow up volume aims to improve the understanding and outcomes of planetary health and sustainable food systems through cross cultural sharing of indigenous focused research and experiences community based case studies guide readers to understand the emergence potential application and renewal of indigenous food systems and planetary health innovations and their role in supporting the well being of their communities and lands and advancing the global vision of sustainable futures through interdisciplinary perspectives this novel edited volume is well suited for courses in indigenous studies food studies human geography indigenous and public health health policy cultural studies global studies indigenous governance environmental studies and science natural resources and environmental management and several interdisciplinary programs with a special focus on indigenous knowledges and perspectives on agriculture food systems and planetary health

the routledge handbook of gender and agriculture covers major theoretical issues as well as critical empirical shifts in gender and agriculture gender relations in agriculture are shifting in most regions of the world with changes in the structure of agriculture the organization of production international restructuring of value chains climate change the global pandemic and national and multinational policy changes this book provides a cutting edge assessment of the field of gender and agriculture with contributions from both leading scholars and up and coming academics as well as policymakers and practitioners the handbook is organized into four parts part 1 institutions markets and policies part 2 land labor and agrarian transformations part 3 knowledge methods and access to information and part 4 farming people and identities the last chapter is an epilogue from many of the contributors focusing on gender agriculture and shifting food systems during the coronavirus pandemic the chapters address both historical subjects as well as ground breaking work on gender and agriculture which will help to chart the future of the field the handbook has an international focus with contributions examining issues at both the global and local levels with contributors from across the world with contributions from leading academics policymakers and practitioners and with a global outlook the routledge handbook of gender and agriculture is an essential reference volume for scholars students and practitioners interested in gender and agriculture chapter 13 of this book is freely available as a downloadable open access pdf at taylorfrancis.com under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

this detailed analysis of the global food system looks at the way food is produced distributed and consumed in an effort to create a more equitable and healthful system worldwide with large scale famine afflicting regions around the globe and overconsumption and unhealthy eating habits destroying others many are beginning to wonder if access to food is less of a class based social problem and more of an ethical issue affecting the lives and livelihoods of people all over the world this thoughtful text provides a thorough examination of the factors contributing to this global concern exploring the complexities of international food supply and demand as well as the efforts to bring about a more just global food system through this groundbreaking volume author and educator will schanbacher sheds light on flaws in the current structure and suggests ways to achieve a more balanced approach he considers the economics politics and activism behind and involved in the production distribution and consumption of the global food system in an effort to illuminate many problems associated with hunger inequality and injustice in the food system the book also offers many potential strategies and solutions for making a more healthy sustainable and equitable world chapters contain both theoretical models and concrete practices for food security and offer strategies for creating an equitable system

food sovereignty is an emerging discourse of empowerment and autonomy in the food system with the development of associated practices in rural and some urban spaces while literature on food sovereignty has proliferated since the first usage of the term in 1996 at the rome food summit most has been descriptive rather than explanatory in nature and often confuses food sovereignty with other movements and objectives such as alternative food networks food justice or food self sufficiency this book is a collection of empirically rich and theoretically engaged papers across a broad geographical spectrum reflecting on what constitutes the politics and practices of food sovereignty they contribute to a theoretical gap in the food sovereignty literature as well as a relative shortage of empirical work on food sovereignty in the global north much previous work having focussed on latin america specific case studies are included from canada norway switzerland southern europe uk and usa as well as africa india and ecuador the book presents new research on the emergence of food sovereignties it offers a wide variety of empirical examples and a theoretically engaged framework for explaining the aims of actors and organizations working toward autonomy and democracy in the food system

many of our social and environmental problems stem from our intellectual and spiritual separation from the natural world through his extensive experience in outdoor education dr cohen has discovered simple ways to rebuild our bond with nature enlightening text and stimulating activities quickly reforge the link between us and the world we live in rediscover 53 natural senses that promote health and harmony with nature experience 16 stimulating nature reconnecting activities

many of the chapters in the present volume were first presented at the 2008 bsa annual conference of social worlds natural worlds held at the university of warwick acknowledgements

in the first half of 2008 the world was facing the highest food price levels in 30 years and a global food insecurity crisis although international food prices have since fallen they are still above the levels seen in recent years and are expected to remain so fao estimates that soaring food prices pushed another 115 million people into chronic hunger in 2007 and 2008 bringing the world to nearly one billion hungry people this report explains why food prices increased and the steps needed to ensure that high food prices become an opportunity for developing country farmers to help safeguard world food supplies at affordable prices

this fourth rural sociological society decennial volume provides advanced policy scholarship on rural north america during the 2010 s closely reflecting upon the increasingly global nature of social cultural and economic forces and the impact of neoliberal ideology upon policy politics and power in rural areas the chapters in this volume represent the expertise of an influential group of scholars in rural sociology and related social sciences its five sections address the changing structure of north american agriculture natural resources and the environment demographics diversity and quality of life in rural communities

this book presents the theory the teachings of aldo leopold and the values and the practice context of agrarian thought it further analyzes the programmatic efforts of four selected land grant universities including those at wisconsin iowa maine and vermont with a practical eye toward the application of these lessons

from radical abolitionist john brown to presidential candidate bob dole to visionary environmentalist wes jackson kansas history is bursting with fascinating stories of

individuals who made a difference to the nation and whose lives reveal much about our collective past prominent kansas historian virgil dean has gathered a distinguished team of writers thomas isern craig miner and others who have crafted incisive portraits of 27 notable men and women covering 150 years of kansas and american history here are agitators who moved their fellow citizens to action over political social and economic problems not only john brown but also proslavery agitator william h russell mary elizabeth lease lecturer for the farmers alliance and populist party gerald b winrod a k a the jayhawk hitler and esther brown who challenged segregation in public schools
