Laying the Foundation: A Handbook of Catholic Apologetics and Fundamental Theology is a classic text by the late Fr. Joseph Clifford Fenton, a highly respected author, professor, and theologian of the twentieth century. This book appeared in 1942 under the rather unimposing title *We Stand with Christ: An Essay in Catholic Apologetics*. It should have become a classic; it is, I believe, the greatest work of apologetics produced in a time of superstar apologists such as Fr. J. Sheed, Ronald Knox, and Fulton Sheen. It represents the high point of apologetics as well as a gold standard for subsequent works of fundamental theology. From the foreword by Scott Hahn, Franciscan University of Steubenville.

Have you ever been unable to explain the why of Catholic beliefs? Have you ever wondered why the Old Testament sounds so different from the New Testament? In the Old Testament, God began building a plan and laying a foundation for the beautiful traditions of the Catholic faith that plan was fulfilled by Jesus in the New Testament. *Fulfilled* explores the biblical roots of the Catholic faith; it uncovers God's consistent design for our worship of Him and His relationship with us. Learn how the Old Testament Tabernacle can be used as a blueprint for the Catholic faith and how Jesus fulfilled it in the New Testament. This book will help you explain how Jesus fulfills the Old Testament, share the Catholic faith concisely, learn how to answer incomplete and non-Catholic interpretations of the Bible, examine your own faith and grow deeper in your relationship with Christ, acquire a thorough knowledge of the Tabernacle's design and its function as a blueprint for the faith.

Excellent textbook introduction to the basic issues of fundamental moral theology that considers all of today's moral issues.

This book provides a theological treatment of a body of literature commonly called Catholic Social Teaching (CST). This literature is mainly comprised of papal conciliar and episcopal statements addressing social concerns from the 19th to the 21st centuries. What is often neglected in studies of CST, however, is the underlying theology that it presumes, especially the biblical and patristic roots that have forged a broader tradition of social thought than found in the more recent writings of the Catholic hierarchy. The book argues that prior to the documents of the modern papacy, there was already a rich existing tradition that shaped and informed a Catholic lens on social reality. Himes makes the case that the presence or absence of a previous Catholic imagination largely determines whether the later writings of CST can be judged successful in their teaching or not, rather than an analysis of the recent texts. This book illustrates the theological basis for the ethical commitments in CST through a treatment of fundamental theological themes: creation, incarnation, Trinity, Body of Christ, that gave rise to a Catholic social imagination.
