from the mid 1990s onwards concerns regarding the exposure of children to harmful content in the increasingly digital media environment intensified soon thereafter policy makers across europe realised that alternative regulatory instruments such as self and co regulation might be more appropriate than traditional legislation to address this matter of public interest taking the complex and delicate nature of protecting minors into account this book provides an in depth

legal analysis of the alternative regulatory instruments that can be used to regulate content in the digital era with particular attention to the protection of fundamental rights such as freedom of expression privacy and procedural guarantees internal market regulation competition rules and implementation requirements

the authority on rail systems around the globe track the latest developments in railway systems and equipment manufacturers across the globe with this authoritative industry survey

this tells the story of the development of the private equity industry in germany it is the first comprehensive history of the private equity industry for any country revealing the vicissitudes of private equity investing warts and all it is an engaging chronicle for anyone interested in the industry or the modern german economy

this is the first volume of the air transport and the gats 2000 2005 in review series which will be published progressively in the course 2007 and 2008 it contains the documentation prepared by the wto secretariat for the wto membership in the framework of a quinquennial review process of the air transport sector it deals with services auxiliary to air transport namely maintenance repair and overhaul airlines ticket distribution franchising leasing ground handling airport management and air navigation services these services represent all together hundreds of billions of dollars of turnover and hundreds of thousands of jobs but they are very rarely dealt with in the academic literature be it economic or legal

although eu member states share a tradition of regulating public broadcasting for the public interest such regulation has been in decline in recent years it has been challenged by the emergence of commercial television sworn to the market logic as well as by satellite services and the internet eu law and policy has under pressure from powerful global forces abetted that decline the question thus arises do cultural values still matter in european national broadcasting this important book examines the challenges posed to public service obligations by european union media law and policy an in depth analysis of the extent to which six countries france germany greece italy the netherlands and the united kingdom regulate broadcasting for the public interest reveals a range of vulnerability to national political pressures or alternatively to the ideology of market sovereignty the author examines the country of origin principle and the european quota rule of the television without frontiers directive revealing the influence of european law on the definition and enforcement of programme requirements and shows how the case law of the european court of justice encourages deregulation at the national level without offering adequate safeguards at the supranational level in exchange she asks the question whether

the alleged european audiovisual model actually persists that is whether broadcasting is still committed to protecting such values as cultural diversity the safety of minors the susceptibility of consumers to advertising media pluralism and the fight against racial and religious hatred the book concludes with an evaluation of the impact of the eu state aid regime on the licence fee based financing of public broadcasting despite the increasing importance of the subject its study in a comparative context has been heretofore underdeveloped this book fully provides that context and more and will be of great value and interest to all parties concerned with the key role of communications in the development of european integration

this new volume in the dvances in management information systems series presents assessments of past and current research in information technology outsourcing new and emerging trends in the field and research methods that will generate new directions for the future
