katharina reiss s now classic contribution to translation studies möglichkeiten und grenzen der Übersetzungskritik kategorien und kriterien für eine sachgerechte beurteilung von Übersetzungen first appeared in 1971 this is the first english translation of this major work allowing students and practitioners of translation in the english speaking world to make more extensive use of reiss s pioneering treatment of a central theme in translation how to develop reliable criteria for the systematic evaluation of translations using a wealth of interesting and varied examples reiss offers a systematic and illuminating text typology a pragmatic approach to text analysis a functional perspective on translation and a

hermeneutic view of the translator thus accounting for some of the most important aspects of the translation process the text both source and target versions the conditions which determine the translator s decisions and the translator as an individual whose personal interpretation has to be respected by any critic in the three decades since katharina reiss wrote the terminology of translation studies has evolved on many fronts erroll rhodes translation strikes an optimal balance between remaining faithful to the original presentation and using terminology that today s reader would generally understand and value

as of 17 december 2010 the rome i regulation eu regulation 593 2008 on the law applicable to contractual obligations is directly applicable in all eu member states with the exception of denmark the rome i regulation replaces the rome convention of 1980 in the eu member states and will apply to all contracts concluded as of 17 december 2010 however and herein lies the utility and great importance of this work the rome convention and the rome i regulation will be applied in parallel for a significant time to come the author himself anticipates a ten to fifteen year period in the latter case to contracts made after 17 december 2010 this is why this commentary takes into account both sources of law in their mutual interaction and broader context the comprehensiveness of the rome convention rome i regulation is clearly apparent but one of the great achievements of the author is his amassing of over 1 800 judicial decisions most of which are furnished with a detailed commentary where these decisions apply national laws the latter are cited both in the original and in translation for a number of rulings the commentary include not only a case summary of the facts and an analysis of the conclusions drawn by the court but also takes them as models to hypothesize what conclusions would be reached if the rome i regulation were to be applied

this volume draws attention to many specific challenges of multilingual processing within the european union especially after the recent successive enlargement most of the languages considered herein are not only â less resourcedâ tm in terms of processing tools and training data but also have features which are different from the well known international language pairs the 16 contributions address specific problems and solutions for languages from south eastern and central europe in the context of multilingual communication translation and information
