imam al nawawi s collection of 40 hadiths is one of the most important collections of hadiths we have today imam al nawawi actually compiled a total of 42 hadiths for this collection not 40 he was one of the greatest scholars of islam and lived from 631 a h to 676 a h passing away at the age of 45 allah swt granted him blessing and success in his work so that he could make great contributions to islam before passing away at a relatively young age imam al nawawi was a scholar in many different disciplines of islamic studies the vastness of his works in these different areas is so great that if an individual decides to study fiqh hadith spirituality or quran one would need to pass through imam al nawawi along with the 40 hadiths he authored riyad al saliheen al adhkar and commentary of sahih muslim and sahih bukhari imam al nawawi was one of the foremost figures of the shafi madhab and the largest and most substantial book he wrote in this regard is called al majmua which is about 30 volumes it is a work of comparative fiqh because he brings all of the opinions of different madhab s on different issues together at the end of this edition 40 hadith qudsi is also added

imam al nawawi s collection of 40 hadiths is one of the most important collections of hadiths we have today allah granted him blessing and success in his work so that he could make great contributions to islam at a relatively young age

in his lifetime ibn daqiq wrote many books but this has become his most popular in it he comments on the forty hadiths compiled by yahya al nawawi

and known as the nawawi forty hadiths his commentary has become so popular that it is virtually impossible for any scholar to write a serious book about the forty hadiths without quoting ibn daqiq this is the only book that combines the sagacity of ibn daqiq and the vast knowledge of al nawawi the book was written centuries ago but its benefits are everlasting the book is indispensable for anyone who wants to study islam thoroughly and laconically from the masters themselves we translated from arabic ibn daqiq s commentary in its entirety we listed the text of each hadith first and followed it by the commentary we added a detailed table of contents and thorough explanatory notes a short introduction to the science of hadith by the translators is also included

i have considered collecting forty more important than all of those and they would be forty **ḥadīths** inclusive of all that but each **ḥadīth** would be a great precept from those of the religion one that scholars had described as being the axis of islam or half of islam or a third of it or something similar furthermore i would commit myself regarding these forty to their being authentic and most of them are found within the two **ṣaḥīḥ** of al bukhārī and muslim i cite them with the chains of narration deleted in order to make their memorization easy and their benefit widespread in sha allah taʿālā i then follow up each of them with a section defining their more obscure wordings everyone desiring the hereafter ought to know these **ḥadīths** for what they contain of important information and because they alert one to all kinds of obedience which is obvious to whoever reflects upon it upon allah is my dependence and to him is my commitment and he is my support to him belongs all praise and favor and from him is all success and protection

there were some scholars who collected forty hadiths on the fundamentals while others did so on derived matters others on jihad others on indifference to worldly things others on conduct others on speeches etc and all of them are sound directions may allah be pleased with those who followed them but i have considered collecting forty more important than all of those and they would be forty hadiths inclusive of all that but each hadith would be a great precept from those of the religion one that scholars had described as being the axis of islam or half of islam or a third of it or something similar furthermore imam al nawawi would commit himself regarding these forty to their being authentic and most of them are found within the two **ṣaḥīḥ** of al bukhari and muslim he cites them with the chains of narration deleted in order to make their memorisation easy and their benefit widespread the
