whether u s terrorism prevention efforts match the threat continues to be central in policy debate part of this debate is whether the united states needs a dedicated domestic counterterrorism intelligence agency to inform future policy decisionmaking this book examines from a variety of perspectives the policy proposal that such an agency be created these include its possible capabilities comparing its potential effectiveness with that of current efforts and its acceptability to the public as well as various balances and trade offs involved in creating such an agency reflecting the limits in the data available and the significant uncertainty associated with this policy area if there is a unifying message from the study it is one of caution and deliberation in an area in which direct

assessment and analysis are limited there is a need to carefully consider the implications and potential outcomes of such significant policy changes in doing so examination from different perspectives and through different approaches to ideally capture a sufficient picture of the complexity to see not just the benefits we hope to gain from policy change but the layers of effects and interactions that could either help or hurt the chances of those benefits appearing is a critical ingredient of policy deliberation and design

the refereed proceedings of the third international conference of z and b users zb 2003 held in turku finland in june 2003 the 28 revised full papers presented together with 3 invited papers were carefully reviewed and selected for inclusion in the book the book documents the recent advances for the z formal specification notation and for the b method spanning the full scope from foundational theoretical and methodological issues to advanced applications tools and case studies
