this book explores the various connections between law and opera providing a comprehensive multinational and multidisciplinary with approaches from jurists philosophers musicologist historians resource on the subject further it makes a valuable contribution to studies on law and the humanities while for example the relationship between law and literature has been extensively researched the relationship between law and opera remains largely overlooked the book approaches the topic from three perspectives in three main sections law in opera law on opera and law around opera

margaret l king has put together a highly representative selection of readings from most of the more significant but by no means the most obvious texts by the authors who made up the movement we have come to call the enlightenment they range across much of europe and the americas and from the early seventeenth century until the end of the eighteenth in the originality of the choice of texts in its range and depth this collection offers both wide coverage and striking insights into the intellectual transformation which has done more than any other to shape the world in which we live today it is simply the best introduction to the subject now available anthony pagden ucla and author of the enlightenment and why it still matters

a fresh analysis of that sheds new light on the psalms of solomon researchers whose work focuses on the psalms of solomon experts on the septuagint and scholars of jewish hellenistic literature take a fresh look at debates surrounding the text authors engage linguistic historical and theological issues including the original language of the psalms their historical setting and their theological intentions with the goal of expanding our understanding of first century bce jewish theology features new methods applied to open questions of authorship

and historical context focusd scholarly attention on a work of theological and literary importance revised essays originally presented at the first international meeting on the psalms of solomon

since the earliest encounters between tantric traditions and western scholars tantra has posed a challenge representation of tantra has tended to emphasize the antinomian decadent aspects which as attention grabbing as they were for western audiences hampered the study of the field the oxford handbook of tantric studies is intended to overcome these obstacles facilitating collaboration between scholars working on different forms of tantra and in different disciplines with more than forty chapters and a global pool of contributors the handbook aims to be the definitive reference work in the field exploring core topics such as action transformation embodiment art language and social movements the first chapter provides an overview of major issues confronting the field today including debates regarding the definition and category of tantra historical origins and dating and recent developments in gender studies and tantra ethnography and lived tantra and cognitive approaches to the study of tantra using a topical framework the opening section explores the concept of action one of the most prominent features of tantra which includes performing rituals practicing meditation chanting embarking on a pilgrimage or reenacting moments from a sacred text from there the sections cover broad topics such as transformation e g soteriology and healing gender and embodiment extraordinary beings such as deities and saints art and visual expressions language and literature social organizations and the history and historiography of tantra keywords tantric studies tantra buddhism hinduism jainism ritual soteriology meditation embodiment yoga

the friars represented a remarkable innovation in medieval religious life founded in the early 13th century the franciscans and dominicans seemed a perfect solution to the church s troubles in confronting rapid changes in society they attracted enthusiastic support especially from the papacy to which they answered directly in their first 200 years membership grew at an astonishing rate and they became counsellors to princes and kings receiving an endless stream of donations and gifts yet there were those who believed the adulation was misguided or even dangerous and who saw in the friars actions only hypocrisy deceit greed and even signs of the end of the world from the mid 13th century writings appeared denouncing and mocking the friars and calling for their abolition their french and english opponents were among the most vocal from harsh theological criticism and outrage at the inquisition to vulgar tales and bathroom humor this thoroughly documented work is suitable for the newcomer as well as for readers who are familiar with the subject but might like to investigate specific topics in more detail

this book looks at the first eight sanskrit law codes written in india between 600 bce and 570 ace it focuses on the legal religious and ethical customs which were codified in this period and their impact on the social and political life of women the volume analyzes texts such as the dharma sūtras the arthaśāstra the manu smṛiti the yājñyavalkya smṛiti and nārada smṛiti amongst others it studies discourses on justice conduct virtues and duties and how early laws were used to systematize patriarchy and the varna caste system in south asia it examines how patrimonial laws and male property rights highlighted social anxieties about female chastity and varna lineage which led to the subordination of women and the lower varnas these anxieties are most evident in codes from the late vedic and early classical eras when diverse new settlers arrived upon the

subcontinent at this time kings decentralized governance and allowed local groups to practice communal laws while they meted out court justice with a specific law code as the state became prosperous from trade conducted by merchants of diverse castes sects and classes and social peace was ensured by officials from disparate backgrounds kings began to rely upon a law code that aspired for equity above intolerance these chapters examine heterodox therāvada buddhism and jainism their origins in the oligarchic state their impact on the royal sanskrit state as seen in canonical literature they especially focus on women's roles in heterodox sects and the emergence of new spaces for women as such changes were adopted in disparate ways and degrees by other south asian communities the volume will be a useful resource for students and researchers of history women and gender studies social anthropology sociology and law it will also serve as an information guide for readers who are interested in the political and social life of women in early india
