en esta obra levitt y dubner demuestran a través de ejemplos y una sarcástica perspicacia que la economía representa el estudio de los incentivos qué resulta más peligroso una pistola o una piscina qué tienen en común un maestro de escuela y un luchador de sumo por qué continúan los traficantes de drogas viviendo con sus madres en qué se parecen el ku kux klan a los agentes inmobiliarios quizás éstas no sean las típicas preguntas que se formula un experto en economía pero steven d levitt y stephen j dubner no son unos economistas muy típicos se trata de especialistas que estudian la esencia y los enigmas de la vida cotidiana y cuyas conclusiones con frecuencia ponen patas arriba la sabiduría convencional a través de ejemplos prácticos y de una sarcástica perspicacia levitt y dubner demuestran que la economía en el fondo representa el estudio de los incentivos el modo en que las personas obtienen lo que desean o necesitan especialmente cuando otras personas desean o necesitan lo mismo

these may not sound like typical questions for an economist to ask but steven d levitt is not a

typical economist he studies the riddles of everyday life from cheating and crime to parenting and sports and reaches conclusions that turn conventional wisdom on its head freakonomics is a groundbreaking collaboration between levitt and stephen j dubner an award winning author and journalist they set out to explore the inner workings of a crack gang the truth about real estate agents the secrets of the ku klux klan and much more through forceful storytelling and wry insight they show that economics is at root the study of incentives how people get what they want or need especially when other people want or need the same thing book jacket

here s a first year book that encourages critical thinking and sparks discussion freakonomics addresses current social questions that students will enjoy arguing about both in the classroom and over coffee in the student union which is more dangerous a gun or a swimming why do drug dealers still live with their mothers what makes a perfect parent these may not sound like typical questions an economist asks but levitt is not your typical economist he studies the mysteries of everyday life from cheating and crime to sports and child rearing and his conclusions regularly turn conventional wisdom on its head helping students develop a critical eye to many things that are presented as fact freshman common read appalachian state university virginia commonwealth university university of louisville

a slipcased hardback edition of steven d levitt and stephen j dubner s bestselling phenomenon with the original first penguin edition artwork what do estate agents and the ku klux klan have in common why do drug dealers live with their mothers how can your name affect how well you do in life the answer freakonomics it s at the heart of everything we do and the things that affect us daily from sex to crime parenting to politics fat to cheating fear to traffic jams and it s all about using information about the world around us to get to the heart of what s really happening under the surface of everyday life now updated with the authors new york times columns and blog entries this cult bestseller will show you how by unravelling your life s secret codes you can discover a totally new way of seeing the world

economics is not widely considered to be one of the sexier sciences the annual nobel prize winner in that field never receives as much publicity as his or her compatriots in peace literature or physics but if such slights are based on the notion that economics is dull or that economists are concerned only with finance itself steven d levitt will change some minds in freakonomics written with stephen j dubner levitt argues that many apparent mysteries of everyday life don t need to be so mysterious they could be illuminated and made even more fascinating by asking the right questions and drawing connections for example levitt traces the

drop in violent crime rates to a drop in violent criminals and digging further to the roe v wade decision that preempted the existence of some people who would be born to poverty and hardship elsewhere by analyzing data gathered from inner city chicago drug dealing gangs levitt outlines a corporate structure much like mcdonald s where the top bosses make great money while scores of underlings make something below minimum wage and in a section that may alarm or relieve worried parents levitt argues that parenting methods don t really matter much and that a backyard swimming pool is much more dangerous than a gun these enlightening chapters are separated by effusive passages from dubner s 2003 profile of levitt in the new york times magazine which led to the book being written in a book filled with bold logic such back patting veers freakonomics however briefly away from what levitt actually has to say although maybe there s a good economic reason for that too and we re just not getting it yet

the new york times best selling freakonomics was a worldwide sensation selling over four million copies in thirty five languages and changing the way we look at the world now steven d levitt and stephen j dubner return with superfreakonomics and fans and newcomers alike will find that the freakquel is even bolder funnier and more surprising than the first four years in the making superfreakonomics asks not only the tough questions but the unexpected ones what s more dangerous driving drunk or walking drunk why is chemotherapy prescribed so often if it s so ineffective can a sex change boost your salary superfreakonomics challenges the way we think all over again exploring the hidden side of everything with such questions as how is a street prostitute like a department store santa why are doctors so bad at washing their hands how much good do car seats do what s the best way to catch a terrorist did tv cause a rise in crime what do hurricanes heart attacks and highway deaths have in common are people hard wired for altruism or selfishness can eating kangaroo save the planet which adds more value a pimp or a realtor levitt and dubner mix smart thinking and great storytelling like no one else whether investigating a solution to global warming or explaining why the price of oral sex has fallen so drastically by examining how people respond to incentives they show the world for what it really is good bad ugly and in the final analysis super freaky freakonomics has been imitated many times over but only now with superfreakonomics has it met its match

which poses a greater threat a gun or a swimming pool why do drug dealers still live with their mothers what connects real estate agents and the ku klux klan these aren t the questions you d expect from an economist but steven d levitt isn t your typical economist he s a celebrated scholar who investigates the puzzles of ordinary life cheating crime sports parenting and

reaches conclusions that upend what we think we know freakonomics represents a groundbreaking partnership between levitt and stephen j dubner an award winning journalist and author some questions explored here involve life and death stakes while others embrace their admittedly peculiar nature together they define a new discipline freakonomics through compelling narratives and sharp wit levitt and dubner demonstrate that economics fundamentally examines incentives how people obtain what they want or need particularly when others are competing for the same resources in freakonomics they reveal the concealed mechanics of everything around us how crack gangs operate internally the realities behind campaign finance the revealing patterns of teacher cheating what connects these diverse stories is a conviction that our complex often deceptive modern world remains penetrable and knowable and becomes even more fascinating when we ask the right questions all that is required is a fresh perspective freakonomics establishes an unconventional framework if morality describes how we wish the world functioned economics reveals how it actually operates while readers will certainly collect enough intriguing anecdotes to fuel countless conversations this book offers something far more valuable it fundamentally transforms how you perceive the modern world this revised and expanded edition includes bonus content selected freakonomics columns from the new york times magazine a conversation between steven levitt stephen dubner and angela duckworth plus the original new york times magazine profile dubner wrote about levitt that launched their collaboration
