this book is a collection of high quality research work on cutting edge technologies and the most happening areas of computational intelligence and data engineering it includes selected papers from the international conference on computational intelligence and data engineering iccde 2022 it covers various topics including collective intelligence intelligent transportation systems fuzzy systems bayesian network ant colony optimization data privacy and security data mining data warehousing big data analytics cloud computing natural language processing swarm intelligence and speech processing

a toolkit for all special educational needs professionals providing the resources to ensure that every special school is prepared to handle a pupil bereavement as well as giving the knowledge and tools to effectively support bereaved children

the impact of the 1988 education reform act on the management of schools and the delivery of the curriculum is a major preoccupation for all those in education any discussion of the role of the teacher and the entitlement of the pupil is dominated by the requirements of the national curriculum it is easy to forget that teachers are also concerned with the emotional support of troubled children and with the promotion of the personal social and moral development of all children initiated by and published in association with the national association for pastoral care in education napce this book brings together teachers and teacher educators at the forefront of developments in pastoral care and presents its wide ranging and up to date examination of the pupil's entitlement to pastoral support and to a curriculum which pays due regard to the development of the whole person represents the first comprehensive treatment of these topics to be published for over a decade

engaging students in learning about their subject is a central concern for all teachers and teacher educators how teachers view and use the pedagogic potential of different tasks to engage pupils with knowledge in different subjects is central to this endeavour designing tasks in secondary education explores models for effective task design helping you translate the curriculum into the tasks and activities that you ask your students to do in order to facilitate developmental or higher level understanding of curriculum content written by experts in the field of education from a range of subjects and including a foreword written by renowned author professor walter doyle this book spans an international

context and offers a refreshing alternative of how to plan and design tasks that will not only intellectually stimulate but improve teaching quality key topics explored include designing tasks which engage learners with knowledge policy perspectives on task design designing cognitively demanding classroom tasks task design issues in the secondary subjects designing tasks in secondary education offers essential insight into task design and its importance for enhancing subject understanding and student engagement it will challenge and support all education professionals concerned with issues of curriculum design subject knowledge classroom organisation agency in the learning process and teaching quality

death is said to be western society's last taboo teachers often shy away from discussing death within their classrooms and few schools integrate teaching about death into the curriculum yet schools have a significant contribution to make to a pupil's successful adjustment to loss illuminated by fascinating transcriptions of interviews with children of different ages which reveal their perceptions of death and reactions to loss this book will reassure teachers that just as there is no right way to grieve every individual will express grief differently book jacket title summary field provided by blackwell north america inc all rights reserved

we hope that the lives of all children will be filled with possibility with open horizons and rainbows into the future children with serious illnesses their families and those who care for them confront the realization that not everything is possible that despite dramatic scientific and medical advances the lifespan of some children will be shortened this threat of premature loss heightens the sense of time for children and families alike and challenges clinicians to create new pathways of hope for them
