policy making in food security is at a crossroads in india particularly for the rice crop whereas india has emerged has a leading rice exporter over the last two years the government has also introduced a large food subsidy program called the national food security act the program requires that 33 6 million metric tons of rice per year be distributed to the marginalized rural and urban populations of the country in this study we analyze the long term impact of india s food security act on its domestic rice market and the international market for rice we specify and apply a structural demand and supply model to india s rice market and link it with the world rice market as part of a broad partial equilibrium modeling system of international agriculture commodity markets we specifically focus on three different scenarios subsidy as a price effect subsidy as an inelastic income effect and subsidy as an elastic income effect under the broader framework of the national food security act we find that at the end of the projection period the 2024 2025 crop year as a result of the rice subsidy program the consumption of rice increases significantly by 6 831 thousand metric ton mt in the case of the price effect while the inelastic income effect has little on production consumption which increase by 265 thousand mt and 269 thousand mt respectively and no impact on rice export of india

As recognized, adventure as skillfully as experience approximately lesson, amusement, as capably as union can be gotten by just checking out a books **Free Download Modern History Of India In Marathi** after that it is not directly done, you could consent even more more or less this life, regarding the world.
