quotatives considers the phenomenon quotation from a wealth of perspectives it consolidates findings from different strands of research combining formal and functional approaches for

the definition of reported discourse and situating the phenomenon in a broader typological and sociolinguistic perspective provides an interface between sociolinguistic research and other linguistic disciplines in particular discourse analysis typology construction grammar but also more formal approaches incorporates innovative methodology that draws on discourse analytic typological and sociolinguistic approaches investigates the system both in its diachronic development as well as via cross variety comparisons presents careful definition of the envelope of variation and considers alternative definitions of the phenomenon quotation empirical findings are reported from distribution and perception data which allows comparing and contrasting perception and reality

in 1859 the historian lord john acton asserted two great principles divide the world and contend for the mastery antiquity and the middle ages the influence on victorian culture of the middle ages broadly understood then as the centuries between the roman empire and the renaissance was both pervasive and multi faceted this medievalism led for instance to the rituals and ornament of the medieval catholic church being reintroduced to anglicanism it led to the saxon witan being celebrated as a prototypical representative parliament it resulted in viking raiders being acclaimed as the forefathers of the british navy and it encouraged innumerable nineteenth century men to cultivate the superlative beards we now think of as typically victorian in an attempt to emulate their anglo saxon forefathers different facets of medieval life and different periods before the renaissance were utilized in nineteenth century britain for divergent political and cultural agendas medievalism also became a dominant mode in victorian art and architecture with 75 per cent of churches in england built on a gothic rather than a classical model and it was pervasive in a wide variety of literary forms from translated sagas to pseudo medieval devotional verse to triple decker novels medievalism even transformed nineteenth century domesticity while only a minority added moats and portcullises to their homes the medieval style textiles produced by morris and co decorated many affluent drawing rooms the oxford handbook of victorian medievalism is the first work to examine in full the fascinating phenomenon of medievalism in victorian britain covering art architecture religion literature politics music and social reform the handbook also surveys earlier forms of antiquarianism that established the groundwork for victorian movements in addition this collection addresses the international context by mapping the spread of medievalism across europe south america and india amongst other places

this book addresses the topic of linguistic categorization from a novel perspective while most of the early research has focused on how linguistic systems reflect some pre existing ways of categorizing experience the contributions included in this volume seek to understand how linguistic resources of various nature prosodic cues affixes constructions discourse markers can be put to work in order to actively build categories in discourse and in interaction to achieve social goals this question is addressed in different ways by researchers from different subfields of linguistics including psycholinguistics conversation analysis linguistic typology and discourse pragmatics and a major point of innovation is represented in fact by the interdisciplinary nature of the volume and in the systematic search for converging evidence
