about 550 registrants from 51 different countries attended the seventh ottawa conference on medical

education and assessment in maastricht we received 525 abstracts for the conference divided in thematic poster sessions and platform presentations organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has characterized previous ottawa conferences during and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression despite the large number of papers the editors have attempted to review and edit the papers as carefully as possible occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers although we felt that our editorial task was not quite finished we nevertheless decided to include these papers we thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests we are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education the editors want to thank jocelyn flipppo berger whose expertise with desktop publishing and perseverance was a great help

easy to read yet comprehensive in scope this second edition provides a solid understanding of the anatomy of the teeth oral cavity head and neck all in one text

the fundamental purpose of this textbook is to present the principles and facts of human physiology in a format that is suitable for undergraduates regardless of academic background or field of study the eleventh edition carries on the tradition of clarity and accuracy while refining and updating the content to meet the needs of today's instructors and students the eleventh edition features a streamlined clinically oriented focus to the study of human body systems it has also responded to reviewer requests for more clinical applications chapter 19 is new and contains three complete case

studies physiology inquiries have also been added to many figures throughout the chapters

inside doctoring provides a behind the scenes look at what it is like to become and be a physician from pre med to resident the effective doctor to the incompetent one inside doctoring presents autobiographical accounts and real life case studies in insightful and fascinating detail
