students fashion professionals and anyone who wants to know what makes fashion
function this book includes 265 illustrations in color book jacket

this book provides a concise and much needed introduction to the sociology of
fashion most studies of fashion do not make a clear distinction between clothing
and fashion kawamura argues that clothing is a tangible material product whereas
fashion is a symbolic cultural product she debunks the myth of the genius designer
and explains provocatively that fashion is not about clothes but is a belief there is
an institutional structure ignored by many fashion theorists that has shaped and
produced the fashion phenomenon kawamura further shows how the structural
nature of the fashion system works to legitimize designers creativity and can make
them successful newer fashion cities such as milan and new york are the product of
the fashion system that originated in paris without that systemic structure fashion
culture would not exist fashion ology provides a big picture approach that focuses
on the social process behind fashion and its perpetuation

for any market to work properly certain key elements are necessary competition pricing rules clearly defined offers and easy access to information without these components there would be chaos orderly fashion examines how order is maintained in the different interconnected consumer producer and credit markets of the global fashion industry from retailers in sweden and the united kingdom to producers in india and turkey patrik aspers focuses on branded garment retailers chains such as gap h m old navy topshop and zara aspers investigates these retailers interactions and competition in the consumer market for fashion garments traces connections between producer and consumer markets and demonstrates why market order is best understood through an analysis of its different forms of social construction emphasizing consumption rather than production aspers considers the larger retailers roles as buyers in the production market of garments and as potential objects of investment in financial markets he shows how markets overlap and intertwine and he defines two types of markets status markets and standard markets in status markets market order is related to the identities of the participating actors more than the quality of the goods whereas in standard markets the opposite holds true looking at how identities products and values create the ordered economic markets of the global fashion business orderly fashion has wide implications for all modern markets regardless of industry

for mark c taylor the disappearance of depth we sense all around us is a change full of creative possibility taylor introduces us to a popular culture in which detectives the postmodern heroes of paul auster and dennis potter lift surfaces only to find more surfaces and in which fashion advertising plays transparency against hiding he looks at the current preoccupation with body piercing and tattooing and asks whether these practices actually reveal or conceal the limitless spread of computer networks the history of phrenology the religious architecture of las vegas all are brought within the scope of taylor s brilliant analysis postmodernism he shows has given us a new sense of the superficial one in which the issue is not the absence of meaning but its uncontrollable ecstatic proliferation

this book casts a critical look at the dominant position that fashion has come to occupy in contemporary society it addresses various aspects of fashion in postmodern culture including makeup cosmetic surgery tattoos ornament in dress and the blurring of gender boundaries

barber constructs a provisional generalized substantive theory of the social system which he uses as the starting point and focus of his specialized researches in this collection of his major writings in social system theory barber shows how he has used and developed such a framework over the last fifty years and demonstrates the application o

clothing range or the latest sale and keeping a mug next to your kettle to work out how much water you actually need to boil each time as over filling kettles costs british households 68 million on energy bills each year find out how to fit sustainable living into your life in a way that works for you change your impact without radically changing your life and figure out the small steps you can make that will add up to make a big difference halo not included

most american citizens are quick to criticize federal bureaucracy for its size and inefficiency they assume it has exceeded the intent of our nation s founders yet men like james madison and alexander hamilton knew that good public administrators were essential to good government william richardson here examines the origins legitimacy and limitations of public administration from the perspective of the founders thought he shows that these men especially the authors of the federalist advocated an energetic public administration as an essential component of government and even considered the emergence of a natural aristocracy of virtuous civil servants the founders would see the fault of today s federal bureaucracy argues richardson not as much in its size as in the character of its members richardson relates the founders belief that the nation should strive to produce public servants committed to developing character traits such as wisdom and moderation that would exemplify the highest ideals of the republic and thus ensure its survival they anticipated some self interest on the part of administrators but believed it would be held in check by public opinion and the political process to test the success of the founders ideal richardson examines both the character of administrators and the role of ethics in forming that character he explores the various plans for educating public leaders throughout american history and looks at how attitudes toward public administration have changed in this century from woodrow wilson s scientific ideal to recent proposals to downsize government among other suggestions richardson advocates reforming existing institutions by emphasizing character democracy bureaucracy and character is an exercise in legitimizing public administration offering important insights into the founders thoughts that can be applied to today s debate over government bureaucracy public administration may be problematic by nature observes richardson but it is crucial to our form of government through his analysis we can see that while bureaucracy and democracy have long had an uneasy relationship neither can be effective unless we fully assess the place and purpose of character in the american regime

harper s informs a diverse body of readers of cultural business political literary and scientific affairs

issue for oct 1894 has features articles on mount holyoke college and millinery as an employment for women
