stuart casey maslen s article by article commentary on the 1997 anti personnel mine ban convention apmbc addresses international law and state practice on anti personnel mines in the first twenty five years of the lifetime of this disarmament treaty publisher

exploring the link between german biblical interpretation and anti semitism this book is a fresh comprehensive study of leading german exegetes concluding that although nazism brought anti semitic exegesis to a head age old thought structures provided powerful legitimation for oppression

jacob katz here presents a major reinterpretation of modern anti semitism which blends history of ideas about the jews gradually became transformed and then around 1879 picked up so much social force as to result in the premeditated and systematic destruction of the jewish people of europe mr katz revises the prevalent thesis that medieval and modern animosities against jews were fundamentally different he also rejects the scapegoat theory according to which the jews were merely a lightning rod for underlying economic and social tensions on the contrary he argues there were very real tensions between jews and non jews because the jews were a highly visible and cohesive group and so came into conflict with non jews in competing for social and economic rewards in the late 19th century mr katz argues hatred of the jews shifted from their religion to more essential aspects of their character and behavior the term anti semitism he explains which first came into use around 1870 was meant to describe this change thus ironically just as jews were being integrated into the political state skillful propagandists such as theodore fritzche and houston stewart chamberlain were extraordinarily successful in spreading notions of jewish racial inferiority and its threat to the pure aryan stock and so when hitler came on the scene the seeds of jewish race hatred were widely sown
