my first serious blackout marked the line between sanity and insanity though i would have moments of lucidity over the coming days and weeks i would never again be the same person susannah cahalan was a happy clever healthy twenty four year old then one day she woke up in hospital with no memory of what had happened or how she had got there within weeks she would be transformed into someone unrecognizable descending into a state of acute psychosis undergoing rages and convulsions hallucinating that her father had murdered his wife that she could control time with her mind everything she had taken for granted about her life and who she was was wiped out brain on fire is susannah s story of her terrifying descent into madness and the desperate hunt for a diagnosis as after dozens of tests and scans baffled doctors concluded she should be confined in a psychiatric ward it is also the story of how one brilliant man syria born dr najar finally proved using a simple pen and paper that susannah s psychotic behaviour was caused by a rare autoimmune disease attacking her brain his diagnosis of this little known condition thought to have been the real cause of devil possessions through history saved her life and possibly the lives of many others cahalan takes readers inside this newly discovered disease

through the progress of her own harrowing journey piecing it together using memories journals hospital videos and records written with passionate honesty and intelligence brain on fire is a searingly personal yet universal book which asks what happens when your identity is suddenly destroyed and how you get it back with eagle eye precision and brutal honesty susannah cahalan turns her journalistic gaze on herself as she bravely looks back on one of the most harrowing and unimaginable experiences one could ever face the loss of mind body and self brain on fire is a mesmerizing story mira bartók new york times bestselling author of the memory palace susannah cahalan is a reporter on the new york post and the recipient of the 2010 silurian award of excellence in journalism for feature writing her writing has also appeared in the new york times and is frequently picked up by the daily mail gawker gothamist aol and yahoo among other news aggregator sites

this now classic text over 300 000 copies sold presents the most relevant points in clinical neuroanatomy with mnemonics humor and case presentations for neuroanatomy courses and board review second edition

this book is for medical nursing and physician associate students primary care physicians and other health professionals who frequently encounter abnormal values on routine laboratory screening tests such as the complete blood count cbc metabolic panel coagulation studies kidney and liver function tests lipid profile thyroid function tests urinalysis when an abnormality appears unexpectedly what does it mean routine screening tests are often ordered without a particular diagnosis in question making it more challenging to interpret isolated abnormalities which may arise from a wide range of possible causes this book is organized by type of screening test each chapter includes tables listing potential causes of elevated or decreased values along with the underlying pathophysiologic reasoning it is our hope that this book serves as a useful reference for the day to day interpretation of standard screening tests
