in funky business two leaders of the new generation of business thinkers demonstrate how to build companies where people can be creative risk takers and where exciting ideas happen exciting products become reality and talented people want to stay business leaders can discover how to lead others in ways that make a profit while they provide understanding meaning development skills and insight

over recent years western armed forces have been costing more yet achieving less mikkel vedby rasmussen draws on the ideas of business strategy to argue that western militaries need to reform in order to become viable businesses which address relevant security issues within a realistic budget

a hands on introduction to the fields of business and management this comprehensive text unveils the theories behind management and organization via a practice led international approach in this fourth edition the book expands with six new chapters on digital business transformation internationalization corporate social responsibility the future of work human resource management and culture in addition the book contains new topical practical examples and features a fully modernized layout this comprehensive practice led text will be valuable for students of business management and organisation globally a companion website offers students multiple choice questions practical cases and assignments whilst instructors can assess exams cases and college sheets

the world will not live without logos but neither will capitalism silently take over democracy what comes next forget capitalism and the class struggle we are witnessing the birth of a whole new world the digital revolution is in fact changing things far more dramatically than the hype mongers of tech internet ever imagined only not in the

way that they and their investors hoped the move from a society dominated by print and broadcast mass media to the age of interactivity is at least as dramatic as the move from feudalism to capitalism after capitalism comes attentionalism those who can harness global networks of information and master new forms of communication will control business finance and legislation forming the new business and government elites they will inherit the power they are the netocracy

learning to juggle career and relationships while living a healthy fulfilled life has created a whole new set of circumstances unique to the modern woman at the same time we're living in a world that needs the balance of feminine energy at its most powerful to create a sustainable positive future for humankind lynne franks's new book *grow* is aimed at women of all ages who wish to get back in touch with their feminine center where they remember how to connect first with themselves and the divine second with their families and loved ones and third with their local and global communities it's an encyclopedic examination of all of the issues that face a woman of the 21st century including health and well-being spirituality career relationship sexuality family community and social change *grow* based on the colorful format of lynne's previous work *the seed handbook* contains fun exercises stories and guidance to take you through a ten-part program to enable you to reach the gorgeous real original woman inside and find your life's purpose

an entertainment expert offers a broad understanding of religion in a postsecular age and explores the factors that have contributed to fashioning religious life in the twenty-first century

has coolness conquered our economy

shaughnessy combines practical advice with philosophical guidance to help young professionals embark on their careers in graphic design

now that all the internet hype is sorting itself out industry is embarking on a sea of change of monumental proportions in the next decade manufacturers will change the way they perform many functions from interacting with customers to controlling plant floor processes what is about to occur is as significant a change as letters of credit were in the middle ages or railroads were in the 19th century the first part of the 21st century will finally see the much-discussed convergence of business communications and computing *e-business in manufacturing* takes a detailed look at that convergence and what it will mean for the manufacturing organization *e-business in manufacturing* is about the creation of an extended enterprise from the sign-out front to the loading door out back companies are changing the way they buy tools parts raw materials and even services there are changes happening in the way product designers develop new offerings and in the way pricing managers price products there are changes in the way marketing departments are interacting with customers and how customers are seeing their vendors for the first time the independent initiatives of sales force automation manufacturing automation and information systems are being integrated and transformed customer relationship management is impacting far more than just sales and marketing manufacturing automation and supply chain integration are combining to produce an organization that functions as a single real-time value chain from raw material to customer *e-business in manufacturing* looks at each part of the enterprise from sales and marketing to manufacturing and logistics and shows how enabling real-time interaction can result in a significant increase in revenue while at the same time produce a leaner more efficient organization
