meditation is the result of departing from and returning to christianity it is about tasting again the salt of jesus teachings and

rejoicing in imitating him in our eternal life which for us christians begins down here on earth and will continue on in heaven the catholic church which i served as an altar boy from the age of 6 to the age of 18 made me a legalistic robot with little or no free will i was engulfed in guilt and despair that i will never amount to anything good spiritually one day i quit trying to become a good catholic and went on a journey of discovery of other more attractive religions only to find along the way that jesus is the way

the hyplern project has been creating word for word translated language material since 2006 the aim of our project is to allow students to start reading the language of their choice immediately and expand their vocabulary fast this book is based on three elements to expand your mastery of the language fast and easy a lot of vocabulary in original non artificial stories immediate availability of meaning in immersive interlinear format and memorizing efficiency through repetition and association by story use the following method to attain new vocabulary fast 1 read the stories and re read them until you know most of the words this is a fast process because there s no lookup time with the unique word for word literal plus idiomatic translations and most words or their root forms occur more than once so you ll start recognizing them already after the first read if looking at yes not up our word for word translation costs one second and looking up a word in a dictionary costs a minute it means our method is a lot faster 2 then focus on the remaining words that you still don t know by marking them in the text rereading only the paragraphs with difficult words will help you memorize them both by repetition and by association where a google or dictionary translation might be missing or misplaced the manually added literal word for word translation is in context and correct conjugation this means that on top of being much faster you re learning much more efficiently than with any other method
